
PROTECTING THE NATION'S HEALTH IN AN ERA OF GLOBALIZATION

CDC's Global Infectious Disease Strategy

CDC

CENTERS FOR DISEASE Control and Prevention

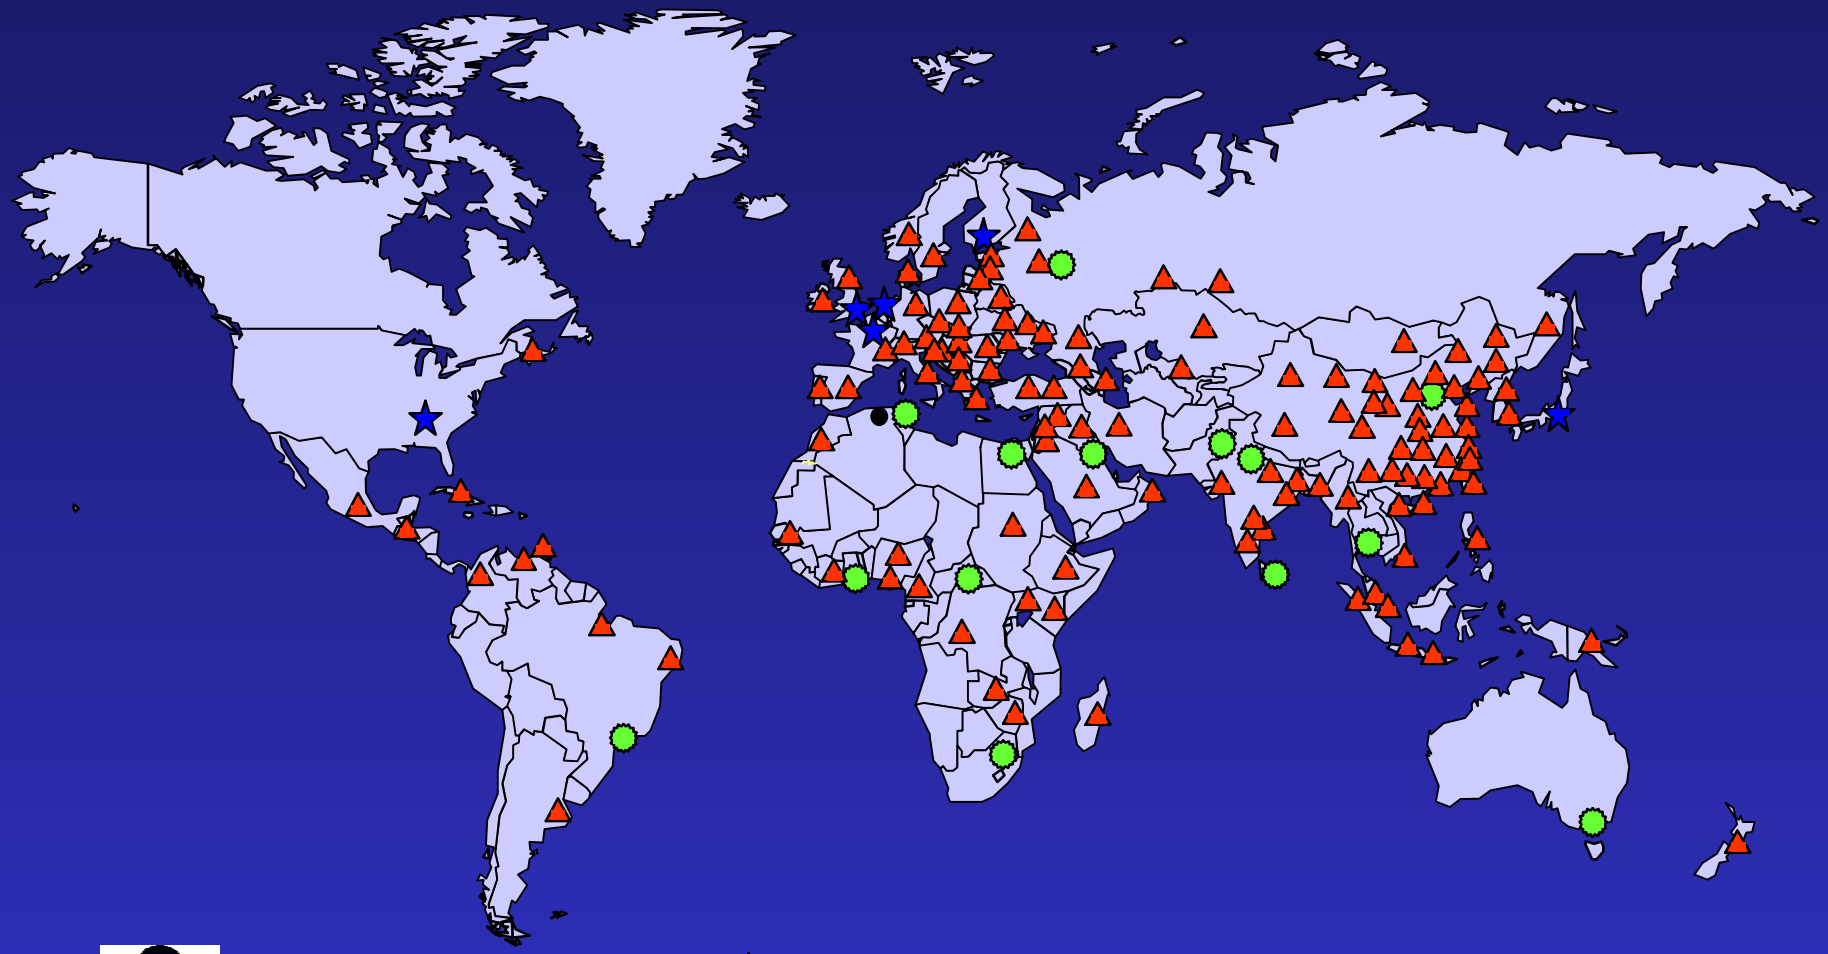
SAFER · HEALTHIER · PEOPLE

CDC

1. International Outbreak Assistance

2. A Global Approach to Disease Surveillance

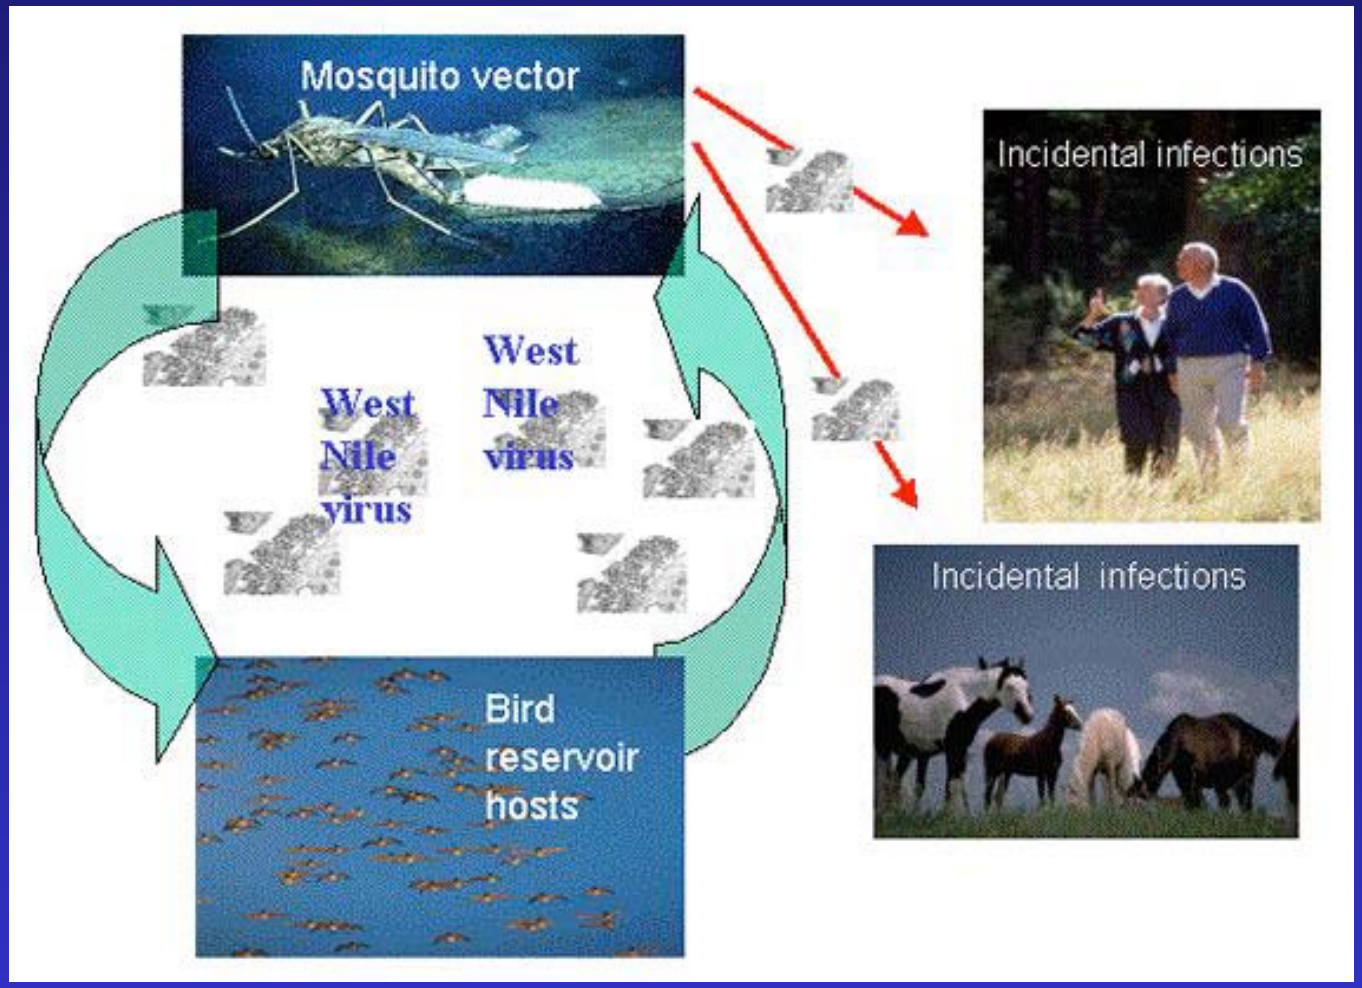
Laboratory Network for Polio Eradication, 2000



- Specialised Reference Laboratory
- Regional Reference Laboratory
- National/Sub-national Laboratory
- Proposed National Laboratory

As of January 2000

3. Applied Research on Diseases of Global Importance



4. Application of Proven Public Health Tools

5. Global Initiatives for Disease Control

6. Public Health Training and Capacity Building

International Emerging Infections Programs

- Build an international surveillance network
  - Population-based surveillance at centers of excellence
- Train local scientists and CDC personnel
  - Build capacity for global infectious disease control
- Provide a broad platform for research
  - Infrastructure for more efficient and effective programs
- Support outbreak response
  - Strengthen capacity to control emerging pathogens
