

Registry Plus Online Help 10.1

Released August 2004

[Download](#) the latest version of Online Help, Version 10.1, release August 2004.

Online Help Version 10.1 Release Notes

- The entire help system has been migrated to HTML help, the current Microsoft help compiler. The new system provides enhanced navigation and more robust developers' tools. Migration was accomplished in collaboration with the staff of CNEXT registry software.
- The Commission on Cancer's FORDS Manual was added for 2003. All of the published changes to NAACR and SEER for 2003 were also incorporated.

Online Help Future Releases

- Add Collaborative Staging manual for use in 2004. Incorporate any 2004 changes in standards published by SEER and the Commission on Cancer.
