

## Healthy People 2010 Operational Definition

---

### **8-25. Reduce exposure of the population to pesticides, heavy metals, and selected environmental chemicals, as measured by blood and urine concentrations of the substances or their metabolites.**

#### **8-25n. Dieldrin.**

<b>National Data Sources</b>	National Report on Human Exposure to Environmental Chemicals, CDC, NCEH; National Health and Nutrition Examination Survey (NHANES), CDC, NCHS.
<b>State Data Source</b>	Not identified.
<b>Healthy People 2000 Objective</b>	Not applicable.
<b>Changes since the 2000 Publication</b>	None.
<b>Measure</b>	Concentration (ng/g lipid).
<b>Baseline (Year)</b>	20.3 (2001-2002)
<b>Target</b>	14.2
<b>Target-Setting Method</b>	30 percent improvement.  For a discussion of target-setting methods, see Part A, section 4.
<b>Numerator</b>	Concentration level of dieldrin in serum samples at which 95 percent of the population aged 12 years and older is below the measured level.
<b>Denominator</b>	Not applicable.
<b>Population Targeted</b>	U.S. civilian, noninstitutionalized population.
<b>Questions Used To Obtain the National Baseline Data</b>	Not applicable.
<b>Expected Periodicity</b>	Biennially.

**Comments**

This subobjective moved from developmental to measurable after the Healthy People 2010 Midcourse Review.

See the National Report on Human Exposure to Environmental Chemicals for further information: <http://www.cdc.gov/exposurereport/default.htm>.

See Appendix A for focus area contact information.
