Adding NHIS Extra Units to Case Management

Usually EXTRA units are picked up by the instrument when you ask the housing unit coverage questions at the beginning of the interview. EXTRA units picked up by the instrument are automatically added to Case Management.

However, *when you discover EXTRA units **after** you have completed the coverage questions, you need to add these EXTRA units to Case Management yourself.*

First determine if a unit is an EXTRA unit by using this criteria:

In general, an EXTRA unit is any separate housing unit that is **not** listed.

Area Segments

The EXTRA unit must be

- A separate living quarters (live and eat separately) with direct access to the unit
- Within the segment boundaries
- Within the same structure or on the same property as the sample unit

Permit Segments

The EXTRA unit must be

- A separate living quarters (live and eat separate with direct access to the unit)
- Within the same structure
- Within the same space occupied by the original sample unit

Group Quarters in Area Segments

-  Group Quarters (GQ) do not have separate living quarters; therefore, there are **no** EXTRA units for a GQ by definition. If you find more GQ units than expected as you interview, note this in the Footnotes section of the listing sheet.
-

Then add the EXTRA unit(s) to Case Management following these steps:

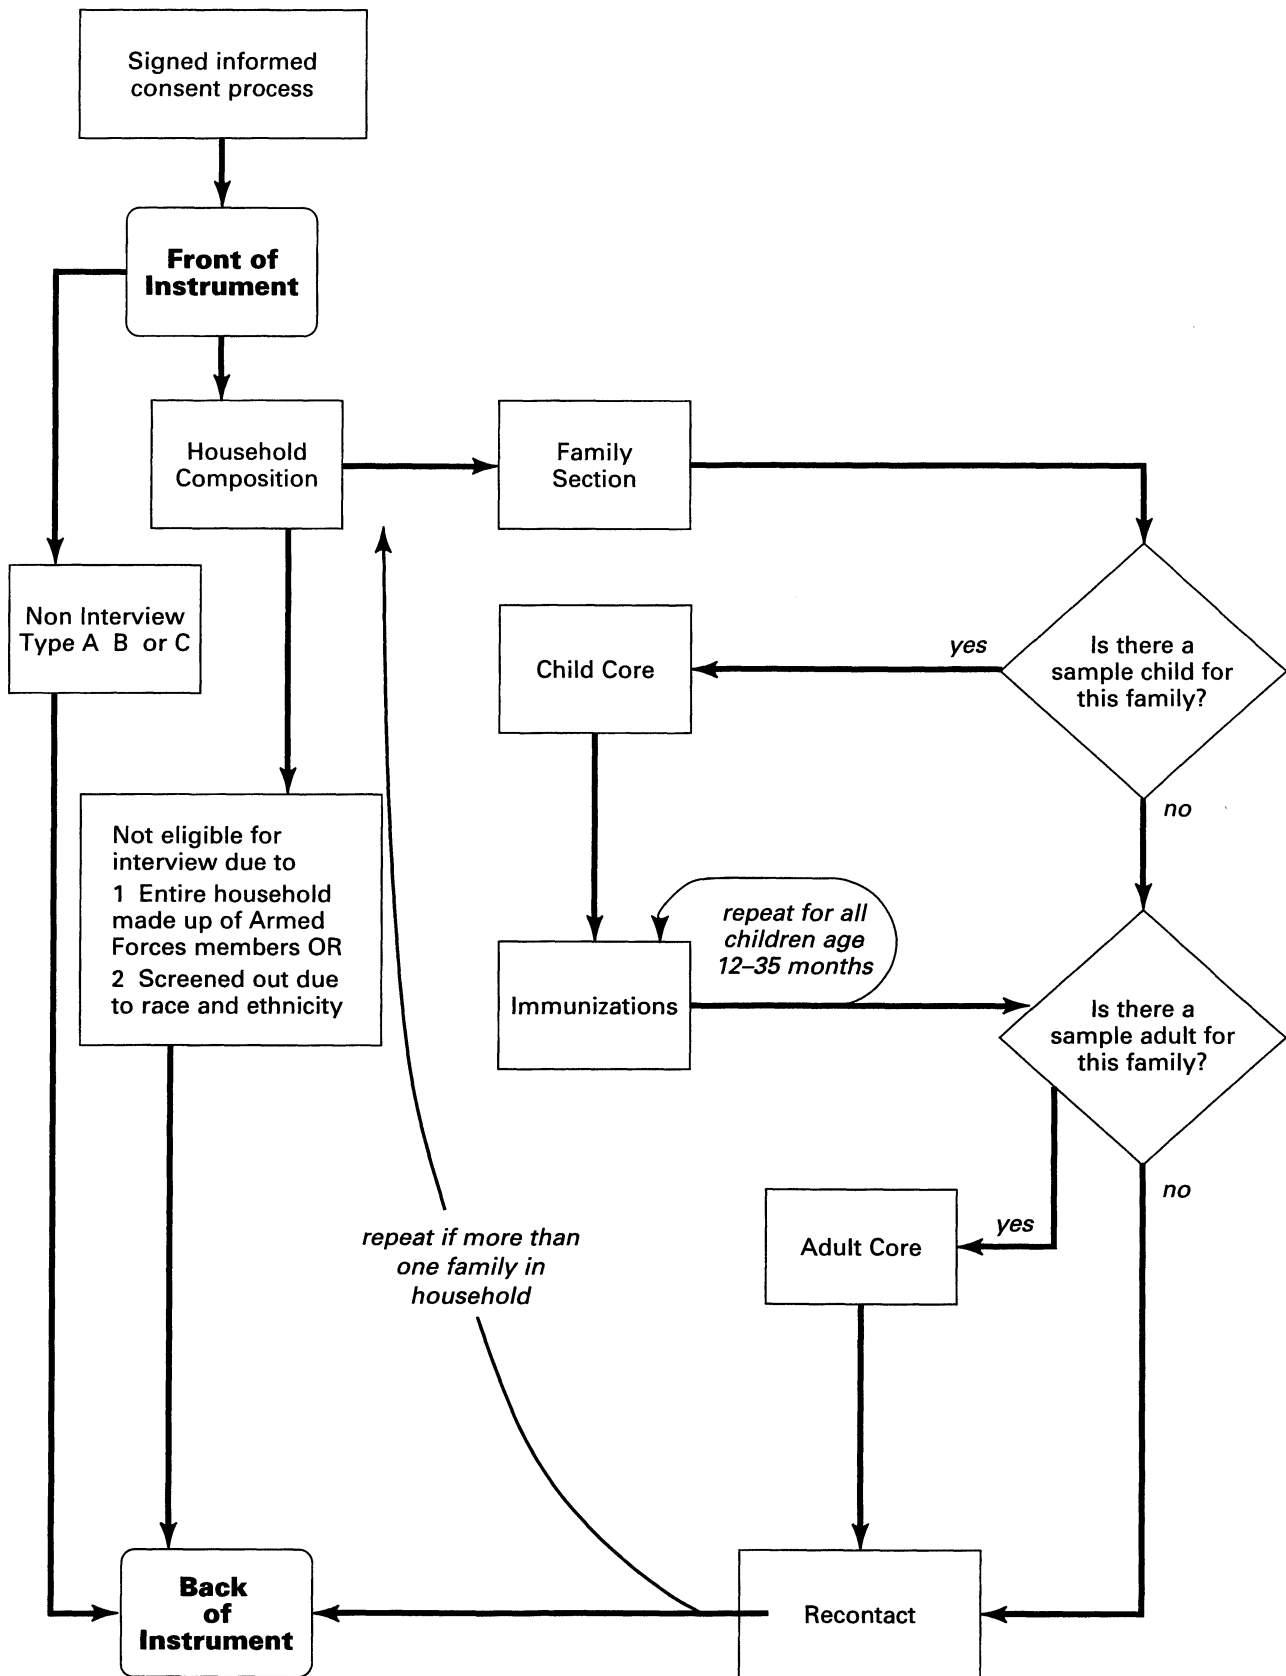

-  If you find more than 3 EXTRA units, call your office before conducting the interview.

- 1 Go to the Case List Screen
- 2 Place the cursor on the parent unit address on the Case List Screen
- 3 Press F4 to create new record for the EXTRA unit(s)
- 4 Enter the unique unit designation or correct the address for the EXTRA unit
