# **EXPLANATION OF THE NATIONAL HEALTH INTERVIEW SURVEY (SPANISH)**

## **ACLARACION DE LO QUE SIGNIFICA LA ENCUESTA NACIONAL DE ENTREVISTAS SOBRE LA SALUD**

El propósito de la Encuesta Nacional de Entrevistas sobre la Salud es obtener información en materia de la salud. Esto incluye información sobre enfermedades (la frecuencia y gravedad), incapacidades, accidentes, los tratamientos y las atenciones médicas que consiguen las personas cuando tienen problemas de salud, y otra información sobre la salud de la población en este país.

La información en cuestión es utilizada por los departamentos gubernamentales de salud al nivel federal, estatal y local, las escuelas de medicina, los institutos de investigación científica, y otros grupos e individuos.

La Oficina del Censo lleva a cabo esta encuesta por El Centro Nacional de Estadística de la Salud, el cual forma parte del Servicio de Salud Pública de los Estados Unidos. Dichas organizaciones están realizando esta encuesta para satisfacer la necesidad urgente de mantener al día las estadísticas sobre la salud general. Esta encuesta es autorizada por el Código de los Estados Unidos conforme a la sección 242k de su título 42. Toda la información obtenida se considera privada y es usada solo para estudios estadísticos. Su participación en esta encuesta es voluntaria y no se impone sanción alguna si decide no contestar a ciertas preguntas. Sin embargo, agradecemos su cooperación, dado que esta es extremadamente importante para asegurar que los datos obtenidos son exactos y completos.

# EXPLANATION OF THE NATIONAL HEALTH INTERVIEW SURVEY

The basic purpose of the National Health Interview Survey (NHIS) is to obtain information about the frequency and severity of various illnesses, disability, and accidents, the kind of care and treatment people receive for their health problems, and other information related to the health of our Nation.

Data are compiled for use by Federal, State, and local health departments, medical schools, research organizations, and other groups or individuals.

The U.S. Census Bureau is conducting this survey for the National Center for Health Statistics which is part of the U.S. Public Health Service because of the urgent need for up-to-date statistics on the health of the people. The survey is authorized by title 42, United States Code, section 242k. The information collected is confidential and will be used only for statistical purposes. Participation in this survey is voluntary and there are no penalties for refusing to answer any question. However, your cooperation is extremely important in obtaining much needed information to ensure the completeness and accuracy of the data.

## SUGGESTED INTRODUCTION

**"I am \_\_\_\_\_ from the U.S. Census Bureau. Here is my identification card. We are conducting a health survey for the National Center for Health Statistics, which is part of the U.S. Public Health Service. Did you receive a letter explaining this survey?"**

## TELEPHONE CALLBACK INTRODUCTION

**"I am \_\_\_\_\_ from the U.S. Census Bureau. I spoke with *(previous respondent)* during a visit to your household concerning a health survey we are conducting across the Nation. I arranged with *(previous respondent)* to call today to ask you some questions. Your household was previously provided with a letter explaining this health survey. Your participation is voluntary and you may discontinue participation at any time. By law, the U.S. Census Bureau, the National Center for Health Statistics, and other health agencies must keep all your answers confidential. The data are used only for statistical research on issues related to health."**

# Adding NHIS Extra Units to Case Management

Usually EXTRA units are picked up by the instrument when you ask the housing unit coverage questions at the beginning of the interview. EXTRA units picked up by the instrument are automatically added to Case Management.

However, when you discover EXTRA units **after** you have completed the coverage questions, you need to add these EXTRA units to Case Management yourself.

---

## First determine if a unit is an EXTRA unit by using this criteria:

In general, an EXTRA unit is any separate housing unit that is **not** listed.

### Area Segments

The EXTRA unit must be:

- A separate living quarters (live separately with direct access to the unit)
- Within the same structure or on the same property as the sample unit

### Permit Segments

The EXTRA unit must be:

- A separate living quarters (live separately with direct access to the unit)
- Within the same structure
- Within the same space occupied by the original sample unit

### Group Quarters in Area Segments

-  Group Quarters (GQ) do not have separate living quarters, therefore, there are **no** EXTRA units for a GQ by definition. If you find more GQ units than expected as you interview, note this in the Footnotes section of the listing sheet.

---

## Then add the EXTRA unit(s) to Case Management following these steps:

-  If you find more than 16 EXTRA units, call your office before conducting the interview at the original sample unit.

1. Go to the Case List Screen.
2. Place the cursor on the parent unit address on the Case List Screen.
3. Click "Actions" on the Menu Bar and click "Add Case" to create new record for the EXTRA unit(s).
4. Enter the unique unit designation or correct the address for the EXTRA unit.
