3. Elected or Appointed Tribal Official
4. Designated Tribal Official
5. Tribal Public Health Department/organization leader
6. Others

Instructions for changing Zoom Display Name.

- Go to the top right corner of your Zoom displayed box

- Click on the ellipses (three dots)

- Select 'Rename'

- Enter a new screen name (name, tribal position, tribe)

- Select 'OK'

OR

- Click on name in "Participant's List"

- Select 'More' or the ellipses (three dots)

- Select 'Rename'

- Enter a new screen name (name, tribal position, tribe)

- Select 'OK'

Etiquette Guidelines for Listening Session

- All attendees will be muted during the meeting unless speaking.

- If you would like to speak, we ask that you raise your hand using the 'Raise Hand' feature in Zoom. If you are on the phone, press *9 on your telephone keypad.

- When answering a question or making a comment, please start by sharing your name, title, and the tribal nation you are representing.

- Once you are unmuted, we also invite you to turn your camera on, if you would like, so that we can see you as you ask your question or give your comments.

Guided Questions

1. What specific challenges do your tribal health departments face in terms of funding and capacity building, and how can CDC/ATSDR better support overcoming these challenges?

2. What barriers do tribal health departments encounter in achieving public health accreditation? How can CDC/ATSDR assist in accessing, collecting, analyzing and sharing data?

3. How can CDC/ATSDR improve its response to health issues impacting tribal communities, such as opioid overdose prevention and the increasing public health threat of congenital syphilis?

4. What challenges have tribes encountered when working with state health departments and CDC/ATSDR during public health emergencies (e.g. COVID-19 pandemic, natural disasters, opioid crisis, etc.), and how can coordination and communication be improved?

Summary and Closing

Thank you
