ADVANCED FERTILITY CENTER OF TEXAS HOUSTON, TEXAS

Comparison of success rates across clinics may not be meaningful. Patient medical characteristics and treatment approaches vary (see pages 11-20).

| 2013 ART CYCLE PROFILE Data verifie | d by Michael A. Allon, MD |
|-------------------------------------|---------------------------|
|-------------------------------------|---------------------------|

| Type of ART and Procedural Factors a | | | | | Patient Diagnosis b | | | | | |
|--------------------------------------|--------------------------|------|-----------|-----|----------------------------|-----|----------------|-----|---------------------------|--|
| | IVF | 100% | With ICSI | 93% | Tubal factor | 15% | Uterine factor | 4% | Multiple Factors: | |
| | Unstimulated | 0% | Used PGD | 7% | Ovulatory dysfunction | 33% | Male factor | 18% | Female factors only 19% | |
| | Used gestational carrier | 0% | | | Diminished ovarian reserve | 29% | Other factor | 23% | Female & male factors 14% | |
| | | | | | Endometriosis | 14% | Unknown factor | 4% | | |

| 2013 ART SUCCESS RATES ^c | Total number of cycles ^d : 343 (includes 4 cycle[s] using frozen eggs) |

CURRENT SERVICES & PROFILE

Current Name: Advanced Fertility Center of Texas

| Donor eggs? | Yes | Gestational carriers? | Yes | Single women? | Yes | Verified lab accreditation? | Yes |
|----------------|-----|--------------------------|-----|---------------|-----|-------------------------------|-----|
| Donor embryos? | No | Embryo cryopreservation? | Yes | SART member? | Yes | (See Appendix C for details.) | |

a Reflects features of fresh nondonor cycles. If IVF is <100%, the remaining cycles are GIFT, ZIFT, or a combination of these procedures with IVF.

^b Total patient diagnosis percentages may be greater than 100% because more than one diagnosis can be reported for each ART cycle.

^c Fractions are used for rates with denominators less than 20. Multiple-infant births (e.g., twins) with at least one live infant are counted as one live birth.

d Total cycle number includes those using frozen eggs. It excludes 0 cycle(s) evaluating new procedures. Both cycle types are excluded from ART success rates.

e In this report, births are defined as term if at least 37 full weeks gestation and normal birth weight if at least 2,500 grams (approximately 5 pounds, 8 ounces).

f All ages are reported together because previous data show that patient age does not materially affect success with donor eggs.
