

April 30, 2019

Dear NPCR Colleague:

The Centers for Disease Control and Prevention, Division of Cancer and Prevention Control, Cancer Surveillance Branch thanks you for attending the NPCR 2019 Program Review (PR) Meeting held on April 24 and 25, in Atlanta, Georgia at the CDC Roybal campus. The goals of the PR meeting were to inform awardees of updates re CDC/NPCR program standards and activities, provide timely NPCR guidance and technical assistance, and allow participants to network with each other and CDC partners. As NPCR cancer registry awardees, your participation in this event was critical in ensuring these goals were achieved and for making the PR meeting a success.

Updated PR Meeting materials including the final participants' roster, presenter contact information, PowerPoint presentation slide pdfs, meeting handouts, breakout session notes, answers to questions submitted on index cards, and Auditorium A Day 1 and 2 presentation recordings, will be made available on our SharePoint site for NPCR Program Directors by Friday, May 10, 2019. If you do not have a SharePoint account, and would like access to the NPCR 2019 Program Review Meeting Resources and Materials folder, please contact Ms. Lynda Douglas at LDouglas@cdc.gov for an account login and password information. For all other immediate questions or concerns related to the meeting, please contact Ms. Olivia Marr at OMarr@cdc.gov.

Thank you again for your participation in this highly productive meeting, and for informing CDC regarding your ongoing NPCR activities, strategies, and future programmatic directions. We wish you continued success in all of your professional undertakings, and are proud to continue collaborating with you in this critically important work.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "V. Benard", with a long horizontal flourish extending to the right.

Vicki Benard, PhD, Chief
Cancer Surveillance Branch
Division of Cancer Prevention and Control
