

CDC's Strategic Priority-Strengthening Public Health-Healthcare Collaboration

- **How could the training described in these presentations be useful to your or other laboratory or practice setting? Have you or your staff previously participated in any of these training sessions? If not, why not?**
- **What types of training products are most likely to be helpful in your laboratory or other settings with which you're familiar?**
- **How could training be provided that would facilitate strengthening public health/healthcare collaborations?**
- **What additional topics should be considered for future laboratory training?**
