

Health Services

3.1 ¹	Has a state health services (HSV) coordinator	● ²
	Requires each district to have an HSV coordinator	○
	Requires each school to have an HSV coordinator	○
3.2.1, 3.2.2, and 3.2.3	Requires districts or schools to provide the following health services when needed:	
	Administration of fluoride rinses	○
	Administration of medications	○
	Administration of sports physicals	○
	Alcohol- or other drug-use treatment	○
	Application of dental sealants	○
	Assistance with accessing benefits for students with disabilities	○
	Assistance with enrolling in Medicaid or SCHIP ⁵	○
	Assistance with enrolling in WIC ⁶ or accessing food stamps or food banks	○
	Cardiopulmonary resuscitation (CPR)	○
	Case management for students with chronic health conditions	○
	Case management for students with disabilities	●
	Counseling for emotional or behavioral disorders	○
	Crisis intervention for personal problems	○
	Eating disorders treatment	○
	First aid	○
	HIV counseling, testing, and referral	○
	Identification of emotional or behavioral disorders	○
	Identification of or referral for physical, sexual, or emotional abuse	●
	Identification of or referrals for oral health problems	○
Identification or school-based management of acute illnesses	○	
Identification or school-based management of chronic health conditions	○	
Identification or treatment of STDs	○	
Immunizations	○	
Instruction on self-management of chronic health conditions	○	

3.2.1, 3.2.2, and 3.2.3 (cont'd.)	Prenatal care referrals	<input type="radio"/>	
	Referrals for after-school programs	<input type="radio"/>	
	Referrals for child care for teen mothers	<input type="radio"/>	
	Services for gay, lesbian, or bisexual students	<input type="radio"/>	
	Stress management	<input type="radio"/>	
	Tobacco-use cessation	<input type="radio"/>	
	Tracking of students with chronic health conditions	<input type="radio"/>	
	Weight management	<input type="radio"/>	
3.3	Requires districts or schools to provide the following prevention services:		
	Alcohol- or other drug-use prevention	<input type="radio"/>	
	HIV prevention	<input type="radio"/>	
	Injury prevention and safety counseling	<input type="radio"/>	
	Nutrition and dietary behavior counseling	<input type="radio"/>	
	Physical activity and fitness counseling	<input type="radio"/>	
	Pregnancy prevention	<input type="radio"/>	
	STD prevention	<input type="radio"/>	
	Suicide prevention	<input type="radio"/>	
	Tobacco-use prevention	<input type="radio"/>	
	Violence prevention	<input type="radio"/>	
3.4	Requires the following immunizations or vaccinations for entry into kindergarten or first grade:		
	Chicken pox (varicella)	<input type="radio"/>	
	Diphtheria	<input checked="" type="radio"/>	
	Haemophilus influenzae type B	<input type="radio"/>	
	Hepatitis B	<input checked="" type="radio"/>	
	Influenza	<input type="radio"/>	
	Measles-containing	<input checked="" type="radio"/>	
	Polio	<input checked="" type="radio"/>	
	Tetanus	<input checked="" type="radio"/>	
	Requires the following immunizations or vaccinations for entry into middle school and high school:		
		Middle School	High School
	Chicken pox (varicella)	<input type="radio"/>	<input type="radio"/>
	Hepatitis A	<input type="radio"/>	<input type="radio"/>
	Hepatitis B	<input type="radio"/>	<input type="radio"/>
	Second measles-containing	<input checked="" type="radio"/>	<input checked="" type="radio"/>
Tetanus booster	<input type="radio"/>	<input type="radio"/>	
3.5	Requires the following documentation before school staff may administer medication:		
	Written information on possible side-effects	?	
	Written instructions from the physician	<input checked="" type="radio"/>	
	Written request from the parent or guardian	<input checked="" type="radio"/>	

3.6	Has adopted a policy related to who may administer medications to a student at school	<input checked="" type="radio"/>
	Allows students to carry and self-administer the following medications:	
	Epinephrine auto-injector	<input type="radio"/>
	Insulin or other injected medications	<input type="radio"/>
	Other prescribed medications	<input type="radio"/>
	Over-the-counter medications	<input type="radio"/>
	Prescription quick-relief inhaler	<input checked="" type="radio"/>
3.7	Requires supplies for applying standard or universal precautions be available in the following locations:	
	In all classrooms	<input type="radio"/>
	In the gymnasium, on playgrounds, or on playing fields	<input type="radio"/>
	On school buses or in other vehicles used to transport students	<input type="radio"/>
3.8	Requires schools to allow students with HIV infection or acquired immunodeficiency syndrome (AIDS) to engage in the following activities as long as they are able:	
	Attend classes	<input type="radio"/>
	Participate in school sports	<input type="radio"/>
	Participate in any other school activities	<input type="radio"/>
	Requires schools to allow teachers and staff with HIV infection or AIDS to work as long as they are able	<input type="radio"/>
3.9	Requires schools to:	
	Complete injury reports	<input type="radio"/>
	Complete illness reports	<input type="radio"/>
	Report notifiable diseases to the state or local health department	<input checked="" type="radio"/>
3.10	Requires districts or schools to screen students for the following health problems:	
	Hearing problems	<input checked="" type="radio"/>
	Height and weight or body mass problems	<input type="radio"/>
	Oral health problems	<input type="radio"/>
	Scoliosis	<input type="radio"/>
	Vision problems	<input checked="" type="radio"/>
3.11	Specifies a maximum student-to-school nurse ratio	<input type="radio"/>
	Requires at least one full-time school nurse per school	<input type="radio"/>
3.12	Requires school nurse participation in Individualized Education Programs (IEPs) when indicated	<input type="radio"/>
	Requires school nurse participation in Individualized Health Plans (IHPs)	<input type="radio"/>
	Requires school nurse participation in 504 plans when indicated	<input type="radio"/>

3.13	Has schools that serve as Medicaid providers by providing health services to students	●
	Has school-based health centers (SBHCs) that serve as Medicaid providers by providing health services to students	NA
3.14	Requires minimum education level for newly hired school nurses	NA ⁷
3.15	Requires newly hired school nurses to have the following licenses and certifications:	
	LPN license	○
	RN license	●
	National certification from the National Board for Certification of School Nurses	○
	State school nurse certification	○
3.16.1, 3.16.2, and 3.16.3	Provided funding for staff development or offered staff development to school nurses during the past two years on the following health services topics:	
	Accessing benefits for students with disabilities	●
	Administration of fluoride rinses	?
	Administration of medications	●
	After-school programs	○
	Alcohol- or other drug-use treatment	?
	Application of dental sealants	○
	Case management for students with chronic health conditions	○
	Case management for students with disabilities	○
	Child care options for teen mothers	○
	Counseling for emotional or behavioral disorders	●
	CPR	●
	Crisis intervention for personal problems	●
	Eating disorders treatment	●
	Emergency preparedness	●
	Enrollment in WIC or accessing food stamps or food banks	●
	Enrollment in Medicaid or SCHIP	●
	Federal laws that protect the privacy of student health information	●
	First aid	●
	Foodborne illness outbreak detection and response	○
	HIV counseling, testing, and referral	○
	Identification of emotional or behavioral disorders	●
	Identification of or referral for physical, sexual, or emotional abuse	●
Identification or school-based management of acute illnesses	●	
Identification or school-based management of chronic illnesses	●	

3.16.1, 3.16.2, and 3.16.3 (cont'd.)	Identification or treatment of STDs	<input type="radio"/>
	Immunizations	<input checked="" type="radio"/>
	Infectious disease prevention	<input checked="" type="radio"/>
	Oral health problems	<input checked="" type="radio"/>
	Prenatal care referrals	<input type="radio"/>
	Services for gay, lesbian, or bisexual students	<input type="radio"/>
	Sports physicals	<input type="radio"/>
	Stress management	<input checked="" type="radio"/>
	Teaching self-management of chronic health conditions	<input checked="" type="radio"/>
	Tobacco-use cessation	<input checked="" type="radio"/>
	Tracking of students with chronic health conditions	<input type="radio"/>
	Weight management	<input checked="" type="radio"/>
	3.17	Provided funding for staff development or offered staff development to school nurses during the past two years on the following prevention services topics:
Alcohol- or other drug-use prevention		<input checked="" type="radio"/>
HIV prevention		<input type="radio"/>
Injury prevention and safety counseling		?
Nutrition and dietary behavior counseling		<input checked="" type="radio"/>
Physical activity and fitness counseling		<input checked="" type="radio"/>
Pregnancy prevention		<input type="radio"/>
STD prevention		<input type="radio"/>
Suicide prevention		<input checked="" type="radio"/>
Tobacco-use prevention		<input checked="" type="radio"/>
Violence prevention	<input checked="" type="radio"/>	
3.18	Provided funding for staff development or offered staff development to teachers or other school staff during the past two years on the following health topics:	
	HIV infection or AIDS	<input type="radio"/>
	Severe food or other allergies	<input type="radio"/>
	Chronic health conditions	<input checked="" type="radio"/>
	Infectious disease prevention	<input checked="" type="radio"/>
3.19	Provides model policies to districts or schools on the following health topics:	
	HIV infection or AIDS	<input type="radio"/>
	Severe food or other allergies	<input checked="" type="radio"/>
	Chronic health conditions	<input checked="" type="radio"/>
	Infectious disease prevention	<input checked="" type="radio"/>

This publication was prepared by the Centers for Disease Control and Prevention (CDC). It summarizes state-level data collected from each of the 50 states and the District of Columbia during the School Health Policies and Programs Study (SHPPS) 2006. SHPPS is conducted periodically to monitor the extent to which school health policies and practices are addressing the leading causes of death, illness, and social problems among young people and adults.

For additional information on SHPPS or to order SHPPS publications, contact the Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Health Promotion, Division of Adolescent and School Health, 4770 Buford Highway, NE, Mailstop K-33, Atlanta, GA 30341-3717; 800-CDC-INFO; www.cdc.gov/shpps.
