1. This questionnaire focuses on your district's policies and practices regarding mental health and social services.
2. When I use the word "policy," I mean any law, rule, regulation, administrative order, or similar kind of mandate issued by the local school board or other local agency with authority over schools in your district. I am most interested in what is required by the district, not what is recommended or contained in non-binding guidance documents, unless the question specifically asks about recommendations.
3. If a district policy is worded in such a way that it requires schools to develop and adopt their own policies on a given topic, for the purpose of this questionnaire please consider it the same as a district-wide requirement.
4. I recognize that the district may sometimes grant policy exceptions or waivers, but please answer each question based on what is considered the general policy and standard practice.
5. Please do not consider school practices or policies when answering the questions. We will ask about school practices and policies when we collect information from schools across the country.
