Particokinetics In Vitro: Dosimetry Considerations for In Vitro Nanoparticle Toxicology Assessments

Justin G. Teeguarden, Paul M. Hinderliter, Galya Orr, Brian D. Thrall, and Joel G. Pounds

doi:10.1093/toxsci/51.1.108

Toxicological Sciences **95**, 300–312, 2007

Radius, r , should replace diameter, d , in equations 3 and 5. Divide should replace multiply in the second paragraph of the appendix describing application of the adjustment factor. The units for diffusivity in supplemental data table S1 are $10^{-13} \text{m}^2/\text{sec}$. These typographical errors do not affect the analyses presented in the paper.

The authors regret this error.
