WTFA Generated variable

Generated

AGE = All and PPOIS3M = 1 / All poison episodes

Poison episodes for persons who had at least one poisoning during the past 3 months

36-41 Weight - Final Annual

Sources: None

Recodes: None

Keywords: final weight; annual; person weight

Notes: This weight should be used for most analyses at the person level when using a full year of data. All poison questions have a recall period of 3 months. Annual estimates should be calculated as follows:
 (variable) (4) (WTFA) = annual estimate of a variable.
