Due to the October 2013 government furlough, the allowable period to complete sample cases worked in October, November, and December was extended past one month. The definition of a case worked in the early, middle, or late part of the regular interview period no longer applied, thus the Quarter 4 data were removed. This variable was created from SCSTRDUR which is the number of days into the interview period before the Sample Child section was started.

Point in the interview period when the Sample Child section was started

1	Early
2	Middle
3	Late
