

Healthy People 2010 Operational Definition

23-10. Increase the proportion of Tribal, State, and local public health personnel that receive continuing education consistent with the core competencies in the essential public health services.

23-10a. (Developmental) Tribal public health personnel.

Comments

Objective 23-10 moved from developmental to measurable during the Healthy People 2010 Midcourse Review. Three subobjectives were created, addressing Tribal, State, and local public health personnel.

Although the objective became measurable, subobjective 23-10a remains developmental. An operational definition for the subobjective could not be specified at the time of publication.

A potential data source is the Indian Health Service. See Appendix A for focus area contact information.
