

2020 National Health Interview Survey (NHIS) Questionnaire

Contents

1. Introduction

This National Health Interview Survey (NHIS) questionnaire report provides the questions administered to NHIS respondents in the order they were asked. It is organized hierarchically into these parts: Contents, Index, and NHIS questionnaire, which in turn includes the Roster, Adult and Child modules.

2. Section Index

A section index is provided for each of the three modules: Roster, Adult, and Child. The index can be navigated via the Bookmarks pane to quickly get information about the different sections in the module. The display pane lists information about each section in the module including the three-letter section name, the section description, the type of content in the section (annual core, rotating core, sponsored or emerging content) and the page range in this document for each section for ease of printing.

3. NHIS questionnaire: Roster, Adult and Child modules

The questionnaire is the main part of the report and provides detailed information about each question in the survey. The hierarchy in the Bookmarks pane has three levels: module (Roster, Adult, Child), sections within each module, and questions within each section represented by the variable name in the instrument. The sections and questions are listed in questionnaire order. Selecting a specific question in the Bookmarks pane will display a detailed report for that question in the display pane while selecting a section abbreviation will display the report for the first question in the section.

In the question text field of the report, text displayed in **bold and in blue font** is an interviewer instruction which is sometimes followed by optional text in *gray, italic font*.

Information provided for each question includes:

- Question ID: unique alphanumeric code for each question beginning with the 3-letter section abbreviation
- Variable: instrument variable name for the question
- Interview Module: module where the question is located: Roster, Adult, or Child
- Content Type: indicates whether the question is part of the Annual Core, Rotating Core, Sponsored Content or Emerging Content
- Question Text: question wording administered to respondent with indicators for fills; may also include interviewer instructions
- Fills: table of contextual text substitutions that are filled into the question text
- Response: table of possible responses to the question
- Universe: group of respondents who received the question
- Skip Instructions: instructions for moving to the next question in the questionnaire

Additional information may include:

- Hard Edit: prompt received when response entered is not allowed; response must be changed in order to proceed
- Soft Edit: prompt received when response entered is questionable; must follow instructions in order to proceed
- Replicate To: indicates family-level information obtained in the Sample Adult interview that is copied to a replicated variable in the Sample Child and vice versa for efficiency when the Sample Child and the Sample Adult are in the same family.

We would like the last four digits of ^SCNAME's Social Security Number. This information will help us link ^hisher_C survey data with other health-related records of other government agencies, and allow us to conduct additional research without taking up your time with more questions. The National Center for Health Statistics (NCHS) uses this information for research purposes only. Providing this information is voluntary. There will be no effect on ^SCNAME's benefits if you do not provide this information. Federal laws authorize us to ask for this information. Like all other answers you have provided, this information will remain confidential.

** Read if necessary: The specific federal laws protecting ^SCNAME's privacy and the confidentiality of ^hisher_C data are the Public Health Service Act (Title 42, U.S.C., Section 242m(d)), the Confidential Information Protection and Statistical Efficiency Act of 2018 (Title LLL, Public Law No. 115-435), and the Privacy Act of 1974 (5 U.S.C. § 552a).*

** Read if necessary: NCHS collects health-related data from other government agencies, including records from Medicare and Medicaid Services, Social Security, housing, and death certificates. If you agree, NCHS will attempt to link records such as these with ^SCNAME's survey data to give a fuller picture of the kinds of things that affect health. NCHS does this linkage. ^SCNAME's name and ^hisher_C information are not given to these agencies.*
