

## Healthy People 2010 Operational Definition

---

**14-24. Increase the proportion of young children and adolescents who receive all vaccines that have been recommended for universal administration for at least 5 years.**

**14-24b. (Developmental) Adolescents aged 13 to 15 years who receive the recommended vaccines.**

**Leading Health Indicator**

Immunization.

**Comments**

This subobjective was retained at the Healthy People 2010 Midcourse Review despite the current lack of data. An operational definition could not be specified at the time of publication.

Proposed national data sources are the National Immunization Survey (NIS), CDC, NCIRD and NCHS, and the National Health Interview Survey (NHIS), CDC, NCHS.

This subobjective will be used to track the Immunization Leading Health Indicator. See Appendix E for a complete list.

See Part C for a description of NIS and NHIS and Appendix A for focus area contact information.
