Notes

Read to each new respondent.

In order to obtain national level data about the residents of nursing homes such as this one, we are collecting information about a sample of current residents. I will be asking questions about the background, health status, and charges for each sampled resident.

The identifying information you provide will be held in strict confidence and will be used ONLY by persons involved in the survey and only for the purposes of the survey.

Do you have the medical file(s) and record(s) for (Read name's) of selected current resident(s)? If you have a Health Care Finance Administration Minimum Data Set for Nursing Home Resident Assessment form in the records, you may use it while we complete this questionnaire.

If not, ask the respondent to get it/them prior to beginning the interview. Fill sections A and B on the front of all the current resident forms while the respondent gets the records. If no record is available for a resident, try to obtain as much information as possible from whatever administrative records are available and/or from the respondent's memory.
