IN THE CODES APPENDIX
SOURCE:
NCH

CAN — *Beneficiary Claim Account Number (BLANKED)*

The number identifying the primary beneficiary under the SSA or RRB programs submitted.
COMMON ALIAS: CAN
DA3 ALIAS: CLAIM_ACCOUNT_NUMBER
DB2 ALIAS: BENE_CLM_ACNT_NUM
SAS ALIAS: CAN
STANDARD ALIAS: BENE_CLM_ACNT_NUM
TITLE ALIAS: CAN
SOURCE:
SSA,RRB
LIMITATIONS:
RRB-issued numbers contain an overpunch in the first position that may appear as a plus zero or A-G. RRB-formatted numbers may cause matching problems on non-IBM machines.

EQ_BIC — *NCH Category Equatable Beneficiary Identification Code*

The code categorizing groups of BICs representing similar relationships between the beneficiary and the primary wage earner.
The equatable BIC module electronically matches two records that contain different BICs where it is apparent that both are records for the same beneficiary. It validates the BIC and returns a base BIC under which to house the record in the National Claims History (NCH) databases. (All records for a beneficiary are stored under a single BIC.)
COMMON ALIAS: NCH_BASE_CATEGORY_BIC

MS_CD — *CWF Beneficiary Medicare Status Code*

The CWF-derived reason for a beneficiary's entitlement to Medicare benefits, as of the reference date (CLM_THRU_DT).
COBOL ALIAS: MSC
COMMON ALIAS: MSC
DB2 ALIAS: BENE_MDCR_STUS_CD
SAS ALIAS: MS_CD
STANDARD ALIAS: CWF_BENE_MDCR_STUS_CD
SYSTEM ALIAS: LTMSC
TITLE ALIAS: MSC
DERIVATION:
CWF derives MSC from the following:
1. Date of Birth
2. Claim Through Date
3. Original/Current Reasons for entitlement
4. ESRD Indicator
5. Beneficiary Claim Number
Items 1,3,4,5 come from the CWF Beneficiary Master Record; item 2 comes from the FI/Carrier claim record. MSC is assigned as follows:

MSC	OASI	DIB	ESRD	AGE	BIC
10	YES	N/A	NO	65 and over	N/A
11	YES	N/A	YES	65 and over	N/A
20	NO	YES	NO	under 65	N/A
21	NO	YES	YES	under 65	N/A
31	NO	NO	YES	any age	T.

CODES:
10 = Aged without ESRD
11 = Aged with ESRD
20 = Disabled without ESRD
21 = Disabled with ESRD

Variable Name	*Label*

31 = ESRD only
COMMENT:
Prior to Version H this field was named:
BENE_MDCR_STUS_CD. The name has been changed
to distinguish this CWF-derived field from the
EDB-derived MSC (BENE_MDCR_STUS_CD).

SOURCE:
CWF

PMT_AMT — *Claim Payment Amount*

Amount of payment made from the Medicare trust fund for the services covered by the claim record. Generally, the amount
is calculated by the FI or carrier; and represents what was paid to the institutional provider, physician, or supplier, with the exceptions noted below. **NOTE: In some situations, a negative claim payment amount may be pre-
sent; e.g., (1) when a beneficiary is charged the full deductible during a short stay and the deductible exceeded the amount Medicare pays; or (2) when a beneficiary is charged a coinsurance amount during a long stay and the coinsurance amount exceeds the amount Medicare pays (most
prevalent situation involves psych hospitals who are paid a daily per diem rate no matter what the charges are.)
Under IP PPS, inpatient hospital services are paid based a predetermined rate per discharge, using the DRG patient classification system and the PRICER program. On the IP PPS claim, the payment amount includes the DRG outlier approved payment amount, disproportionate share (since 5/1/86), indirect medical education (since 10/1/88), total PPS capital (since 10/1/91). It does NOT include the pass thru amounts (i.e., capital-related costs, direct medical education costs, kidney acquisition costs, bad debts); or

any beneficiary-paid amounts (i.e., deductibles and coinsurance); or any other payer reimbursement.
Under SNF PPS, SNFs will classify beneficiaries using the patient classification system known as RUGS III. For the SNF PPS claim, the SNF PRICER will calculate/return the rate
for each revenue center line item with revenue center code '0022'; multiply the rate times the units count; and then sum the amount payable for all lines with revenue center code '0022' to determine the total claim payment amount.
Under Outpatient PPS, the national ambulatory payment classification (APC) rate that is calculated for each APC group is the basis for determining the total payment. The Medicare payment amount takes into account the wage adjustment and the beneficiary deductible and coinsurance amounts. NOTE: There is no CWF edit check to validate the revenue center Medicare payment amount equals the claim
level Medicare payment amount.
Under Home Health PPS, beneficiaries will be classified into an appropriate case mix category known as the Home Health Resource Group. A HIPPS code is then generated corresponding to the case mix category (HHRG).
For the RAP, the PRICER will determine the payment appropriate to the HIPPS code by computing 60% (for first episode) or 50% (for subsequent episodes) of the case mix episode payment. The payment is then wage index
For the final claim, PRICER calculates 100% of the amount due, because the final claim is processed as an adjustment to the RAP, reversing the RAP payment in full. Although final claim will show 100% payment amount, the provider actually receive the 40% or 50% payment.
Exceptions: For claims involving demos and BBA data, the amount reported in this field may not just represent the actual provider payment.
For demo Ids '01','02','03','04' -- claims contain amount paid to the provider, except that special 'differentials' paid outside the normal payment system are not included.
For demo Ids '05','15' -- encounter data 'claims' contain amount Medicare would have paid under FFS, instead of the actual payment to the MCO.
For demo Ids '06','07','08' -- claims contain actual provider payment but represent a special negotiated bundled payment for both Part A and Part B services.
To identify what the conventional provider Part A payment would have been, check value code = 'Y4'. The related noninstitutional (physician/supplier) claims contain what would have been paid had there been no demo.
For BBA encounter data (non-demo) -- 'claims' contain amount Medicare would have paid under FFS, instead of the actual payment to the BBA plan.

COMMENT:
Prior to Version H the size of this field was S9(7)V99. Als
the noninstitutional claim records carried this field as a l
item. Effective with Version H, this element is a claim lev
field across all claim types (and the line item field has be
renamed.)
SOURCE:
CWF
LIMITATIONS:
Prior to 4/6/93, on inpatient, outpatient, and
physician/supplier claims containing a
CLM_DISP_CD of '02', the amount shown as the Medicare
reimbursement does not take into consideration
any CWF automatic adjustments (involving erroneous
deductibles in most cases). In as many as 30% of
the claims (30% IP, 15% OP, 5% PART B), the
reimbursement reported on the claims may be over
or under the actual Medicare payment amount.

PRPAYAMT   *NCH Primary Payer Claim Paid Amount*

The amount of a payment made on behalf of a Medicare
beneficiary by a primary payer other than Medicare, that
theprovider is applying to covered Medicare charges on an

VISITCNT — *Claim HHA Total Visit Count*

Effective with Version H, the count of the number of HHA visits as derived by CWF.
NOTE1: During the Version H conversion this field was populated with data throughout history (back to service year 1991) using the CWF derivation rule (units associated with revenue center codes 042X, 043X, 044X, 055X, 056X, 057X, 058X and 059X. Value '999' will be displayed if the sum of the revenue center unit count equals or exceeds '999'.
NOTE2: Effective 7/1/99, all HHA claims received with service from dates 7/1/99 and after will be processed as if the units field contains the 15 minute interval count; and each visit revenue code line item will be counted as ONE visit. This field is calculated correctly; but those users who derive the count themselves they will have to revise their routine. NO LONGER IS THE COUNT DERIVED BY ADDING

UP THE UNITS FIELDS ASSOCIATED WITH THE HHA VISIT
REVENUE CODES.

DEMONUM{x} — *Claim Demonstration Identification Number*

where { x } ranges from 1 to 5

Effective with Version H, the number assigned to identify a demo. This field is also used to denote special processing (a.k.a. Special Processing
Number, SPN).
NOTE: Prior to Version H, Demo ID was stored in the redefined Claim Edit Group, 4th occurrence, positions 3 and 4. During the H conversion, this field was populated with data throughout history (as appropriate either by moving ID on Version G or by deriving from specific demo criteria).
01 = Nursing Home Case-Mix and Quality: NHCMQ (RUGS) Demo -- testing PPS for SNFs in 6 states, using a case-mix classification system based on resident characteristics and actual resources used. The claims carry a RUGS indicator and one or more revenue center codes in the 9,000 series.
NOTE1: Effective for SNF claims with NCH weekly process date after 2/8/96 (and service date after 12/31/95) -- beginning 4/97, Demo ID '01' was derived in NCH based on presence of RUGS phase # '2','3' or '4' on incoming claim; since 7/97, CWF has been adding ID to claim.
NOTE2: During the Version H conversion, Demo ID '01' was populated back to NCH weekly process date 2/9/96 based on the RUGS phase indicator (stored in Claim Edit Group, 3rd occurrence, 4th position, in Version G).
02 = National HHA Prospective Payment Demo -- testing PPS for HHAs in 5 states, using two

alternate methods of paying HHAs: per visit
by type of HHA visit and per episode of HH
care.
NOTE1: Effective for HHA claims with NCH weekly
process date after 5/31/95 -- beginning 4/97,
Demo ID '02' was derived in NCH based on HCFA/
CHPP-supplied listing of provider # and start/
stop dates of participants.
NOTE2: During the Version H conversion, Demo ID
'02' was populated back to NCH weekly process
date 6/95 based on the CHPP criteria.
03 = Telemedicine Demo -- testing covering tradi-
tionally noncovered physician services for
medical consultation furnished via two-way, inter-
active video systems (i.e. teleconsultation)
in 4 states. The claims contain line items
with 'QQ' HCPCS code.
NOTE1: Effective for physician/supplier (nonDMERC)
claims with NCH weekly process date after 12/31/96
(and service date after 9/30/96) -- since 7/97,
CWF has been adding Demo ID '03' to claim.
NOTE2: During Version H conversion, Demo ID '03'
was populated back to NCH weekly process date 1/97
based on the presence of 'QQ' HCPCS on one or more
line items.
04 = United Mine Workers of America (UMWA) Managed
Care Demo -- testing risk sharing for Part A
services, paying special capitation rates for
all UMWA beneficiaries residing in 13 desig-
nated counties in 3 states. Under the demo,
UMWA will waive the 3-day qualifying hospital
stay for a SNF admission. The claims contain
TOB '18X','21X','28X' and '51X'; condition
code = W0; claim MCO paid switch = not '0';
and MCO contract # = '90091'.
NOTE: Initially scheduled to be implemented for
all SNF claims for admission or services on
1/1/97 or later, CWF did not transmit any Demo
ID '04' annotated claims until on or about 2/98.
05 = Medicare Choices (MCO encounter data) demo --
testing expanding the type of Managed Care
plans available and different payment methods
at 16 MCOs in 9 states. The claims contain
one of the specific MCO Plan Contract #
assigned to the Choices Demo site.
NOTE1: Effective for all claim types with NCH
weekly process date after 7/31/97 -- CWF adds
Demo ID '05' to claim based on the presences of
the MCO Plan Contract #.
NOTE2: During the Version H conversion, Demo ID
'05' was populated back to NCH weekly process
date 8/97 based on the presence of the Choices
indicator (stored as an alpha character cross-
walked from MCO plan contract # in the Claim
Edit Group, 4th occurrence, 2nd position, in
Version 'G').
06 = Coronary Artery Bypass Graft (CABG) Demo --
testing bundled payment (all-inclusive global

pricing) for hospital + physician services
related to CABG surgery in 7 hospitals in 7
states. The inpatient claims contain a DRG
'106' or '107'.
NOTE1: Effective for Inpatient claims and
physician/supplier claims with Claim Edit Date
no earlier than 6/1/91 (not all CABG sites
started at the same time) -- on 5/1/97, CWF
started transmitting Demo ID '06' on the claim.
The FI adds the ID to the claim based on the
presence of DRG '106' or '107' from specific
providers for specified time periods; the
carrier adds the ID to the claim based on
receiving 'Daily Census List' from parti-
cipating hospitals. Demo ID '06' will end
once Demo ID '07' is implemented.
NOTE2: During the Version H conversion, any
claims where Medicare is the primary payer
that were not already identified as Demo ID
'06' (stored in the redefined Claim Edit
Group, 4th occurrence, positions 3 and 4,
Version G) were annotated based on the follow-
ing criteria: Inpatient - presence of DRG '106'
or '107' and a provider number=220897, 150897,
380897,450897,110082,230156 or 360085 for
specified service dates; noninstitutional -
presence of HCPCS modifier (initial and/or
second) = 'Q2' and a carrier number =00700/31143
00630,01380,00900,01040/00511,00710,00623, or
13630 for specified service dates.
07 = Participating Centers of Excellence (PCOE)
Demo -- testing a negotiated all-inclusive
pricing arrangement (bundled rates) for high-
cost acute care cardiovascular and orthopedic
procedures performed in 60-100 premier facili-
ties in the Chicago and San Francisco Regions
or by current CABG providers. The inpatient
claims will contain a DRG '104','105','106',
'107','112','124','125','209',or '471'; the
related physician/supplier claims will contain
the claim payment denial reason code = 'D'.
NOTE: The demo is on HOLD. The FI and carrier will
add Demo ID '07' to claim.
08 = Provider Partnership Demo -- testing per-case
payment approaches for acute inpatient
hospitalizations, making a lump-sum payment
(combining the normal Part A PPS payment with
the Part B allowed charges into a single fee
schedule) to a Physician/Hospital Organization
for all Part A and Part B services associated
with a hospital admission. From 3 to 6 hospitals
in the Northeast and Mid-Atlantic regions may
participate in the demo.
NOTE: The demo is on HOLD. The FI and carrier will
add Demo ID '08' to claim.
15 = ESRD Managed Care (MCO encounter data) --
testing open enrollment of ESRD beneficiaries
and capitation rates adjusted for patient

treatment needs at 3 MCOs in 3 States. The
claims contain one of the specific MCO Plan
Contract # assigned to the ESRD demo site.
NOTE: Effective 10/1/97 (but not actually imple-
mented at a site until 1/1/98) for all claim
types -- the FI and carrier add Demo ID '15' to
claim based on the presence of the MCO plan
contract #.
30 = Lung Volume Reduction Surgery (LVRS) or
National Emphysema Treatment Trial (NETT)
Clinical Study -- evaluating the effective-
ness of LVRS and maximum medical therapy (in-
cluding pulmonary rehab) for Medicare bene-
ficiaries in last stages of emphysema at 18
hospitals nationally, in collaboration with
NIH.
NOTE: Effective for all claim types (except DMERC)
with NCH weekly process date after 2/27/98 (and
service date after 10/31/97) -- the FI adds Demo ID
'30' based on the presence of a condition code = EY;
the participating physician (not the carrier) adds
ID to the noninstitutional claim. DUE TO THE SEN-
SITIVE NATURE OF THIS CLINICAL TRIAL AND UNDER
THE
TERMS OF THE INTERAGENCY AGREEMENT WITH NIH,
THESE
CLAIMS ARE PROCESSED BY CWF AND TRANSMITTED
TO
HCFA BUT NOT STORED IN THE NEARLINE FILE (access
is restricted to study evaluators only).
31 = VA Pricing Special Processing (SPN) -- not really
a demo but special request from VA due to
court settlement; not Medicare services but
VA inpatient and physician services submitted
to FI 00400 and Carrier 00900 to obtain
Medicare pricing -- CWF WILL PROCESS VA
CLAIMS ANNOTATED WITH DEMO ID '31', BUT WILL
NOT TRANSMIT TO HCFA (not in Nearline File).
37 = Medicare Coordinated Care Demonstration -- to test
whether coordinated care services furnished to
certain beneficiaries improve outcomes of care
and reduce Medicare expenditures under Part A and
Part B. There will be at least 9 Coordinated
Care Entities (CCEs). The selected entities will
be assigned a provider number specifically for the
demonstration services.
NOTE: The demo is on HOLD. The FI and carrier will
add Demo ID '37' to claim.
38 = Physician Encounter Claims - the purpose of this
demo id is to identify the physician encounter
claims being processed at the HCFA Data Center (HDC).
This number will help EDS in making the claim go
through the appropriate processing logic, which
differs from that for fee-for-service. **NOT
IN NCH -- AVAILABLE IN NMUD.**
NOTE: Effective October, 2000. Demo ids will not be
assigned to Inpatient and Outpatient encounter claims.
39 = Centralized Billing of Flu and PPV Claims -- The

purpose of this demo is to facilitate the processing
carrier, Trailblazers, paying flu and PPV claims
based on payment localities. Providers will be
giving the shots throughout the country and trans-
mitting the claims to Trailblazers for processing.
NOTE: Effective October, 2000 for carrier claims.

DEMOTXT{x} *Claim Demonstration Information Text*

where { x } ranges from 1 to 5

Effective with Version H, the text field that contains related
demo information. For example, a claim involving a
CHOICES demo id '05' would
contain the MCO plan contract number in the first
five positions of this text field.
NOTE: During the Version H conversion this
field was populated with data throughout
history.
DB2 ALIAS: CLM_DEMO_INFO_TXT
SAS ALIAS: DEMOTXT
STANDARD ALIAS: CLM_DEMO_INFO_TXT
TITLE ALIAS: DEMO_INFO
DERIVATION:
DERIVATION RULES:
Demo ID = 01 (RUGS) -- the text field will contain
a 2, 3 or 4 to denote the RUGS phase. If RUGS phase
is blank or not one of the above the text field
will reflect 'INVALID'. NOTE: In Version 'G', RUGS
phase was stored in redefined Claim Edit Group,
3rd occurrence, 4th position.
Demo ID = 02 (Home Health demo) -- the text field
will contain PROV#. When demo number not equal to
02 then text will reflect 'INVALID'.
Demo ID = 03 (Telemedicine demo) -- text field will
contain the HCPCS code. If the required HCPCS is
not shown then the text field will reflect
'INVALID'.
Demo ID = 04 (UMWA) -- text field will contain
W0 denoting that condition code W0 was present.
If condition code W0 not present then the text
field will reflect 'INVALID'.
Demo ID = 05 (CHOICES) -- the text field will con-
tain the CHOICES plan number, if both of the follow-
ing conditions are met: (1) CHOICES plan number
present and PPS or Inpatient claim shows that 1st
3 positions of provider number as '210' and the
admission date is within HMO effective/termination
date; or non-PPS claim and the from date is within
HMO effective/termination date and (2) CHOICES
plan number matches the HMO plan number. If
either condition is not met the text field will
reflect 'INVALID CHOICES PLAN NUMBER'. When
CHOICES plan number not present, text will re-

flect 'INVALID'.
NOTE: In Version 'G', a valid CHOICES plan ID is stored as alpha character in redefined Claim Edit Group, 4th occurrence, 2nd position. If invalid, CHOICES indicator 'ZZ' displayed.
Demo ID = 15 (ESRD Managed Care) -- text field will contain the ESRD/MCO plan number. If ESRD/MCO plan number not present the field will reflect 'INVALID'.
Demo ID = 38 (Physician Encounter Claims) -- text field will contain the MCO plan number. When MCO plan number not present the field will reflect 'INVALID'.

REV_DT{x} *Revenue Center Date*

where { x } ranges from 1 to 58

Effective with Version H, the date applicable to the service represented by the revenue center
code. This field may be present on any of the
institutional claim types. For home health claims
the service date should be present on all bills
with from date greater than 3/31/98. With the
implementation of outpatient PPS, hospitals will
be required to enter line item dates of service
for all outpatient services which require a HCPCS.
NOTE1: Beginning with NCH weekly process date
10/3/97 this field was populated with data.
Claims processed prior to 10/3/97 will contain
zeroes in this field.
NOTE2: When revenue center code equals '0022'
(SNF PPS) and revenue center HCPCS code not equal
to 'AAA00' (default for no assessment), date re-
presents the MDS RAI assessment reference date.
NOTE3: When revenue center code equals '0023'
(HHPPS), the date on the initial claim (RAP) must
represent the first date of service in the episode.
The final claim will match the '0023' information
submitted on the initial claim. The SCIC
(significant change in condition) claims may show
additional '0023' revenue lines in which the
date represents the date of the first service
under the revised plan of treatment.

HCPSCD{x} *Revenue Center HCFA Common Procedure Coding System Code*

where { x } ranges from 1 to 58

HCFA's Common Procedure Coding System (HCPCS) is a collection of codes that represent procedures, supplies, products and services which may be provided to Medicare beneficiaries and to individuals enrolled in private health insurance programs. The codes are divided into three levels, or groups, as described below:
DB2 ALIAS: REV_CNTR_HCPCS_CD
SAS ALIAS: HCPCS_CD
STANDARD ALIAS: REV_CNTR_HCPCS_CD
SYSTEM ALIAS: LTHIPPS
TITLE ALIAS: HCPCS_CD
CODES:
REFER TO: CLM_HIPPS_TB
IN THE CODES APPENDIX
COMMENT:
Prior to Version H this field was named: HCPCS_CD. With Version H, a prefix was added to denote the location of this field on each claim type (institutional: REV_CNTR and non-institutional: LINE).
NOTE: When revenue center code = '0022' (SNF PPS)

Variable Name | *Label*

or '0023' (HH PPS), this field contains the Health Insurance PPS (HIPPS) code. The HIPPS code for SNF PPS contains the rate code/assessment type that identifies (1) RUG-III group the beneficiary was classified into as of the RAI MDS assessment reference date and (2) the type of assessment for payment purposes.
The HIPPS code for Home Health PPS identifies (1) the three case-mix dimensions of the HHRG system, clinical, functional and utilization, from which a beneficiary is assigned to one of the 80 HHRG categories and (2) it identifies whether or not the elements of the code were computed or derived. The HHRGs, represented by the HIPPS coding, will be the basis of payment for each episode.
For both SNF PPS & HH PPS HIPPS values see CLM_HIPPS_TB.
Level I
Codes and descriptors copyrighted by the American Medical Association's Current Procedural Terminology, Fourth Edition (CPT-4). These are 5 position numeric codes representing physician and nonphysician services.
**** Note: ****
CPT-4 codes including both long and short descriptions shall be used in accordance with the HCFA/AMA agreement. Any other use violates the AMA copyright.
Level II
Includes codes and descriptors copyrighted by the American Dental Association's Current Dental Terminology, Second Edition (CDT-2). These are 5 position alpha-numeric codes comprising the D series. All other level II codes and descriptors are approved and maintained jointly by the alpha-numeric editorial panel (consisting of HCFA, the Health Insurance Association of America, and the Blue Cross and Blue Shield Association). These are 5 position alpha-numeric codes representing primarily items and nonphysician services that are not represented in the level I codes.
Level III
Codes and descriptors developed by Medicare carriers for use at the local (carrier) level. These are 5 position alpha-numeric codes in the W, X, Y or Z series representing physician and nonphysician services that are not represented in the level I or level II codes.

MDFCD1{x} — *Revenue Center HCPCS Initial Modifier Code*

where { x } ranges from 1 to 58

A first modifier to the procedure code to enable a more specific procedure identification for the claim.

DSCTND{x} *Revenue Center Discount Indicator Code*

where { x } ranges from 1 to 58

Variable Name *Label*

Effective with Version 'I', for all services subject to
Outpatient PPS, this code represents a factor that specifies
the amount of any APC
discount. The discounting factor is applied
to a line item with a service indicator (part
of the REV_CNTR_PMT_MTHD_IND_CD) of 'T'. The
flag is applicable when more than one significant
procedure is performed. **If there is no dis-
counting the factor will be 1.0.**

Variable Name ***Label***

IDENDC{x} *Revenue Center IDE, NDC, UPC Number*

where { x } ranges from 1 to 58

Effective with Version H, the exemption number assigned by the Food and Drug Administration (FDA) to an investigational device after a manufacturer has been approved by FDA to conduct a clinical trial on that device. HCFA established a new policy of covering certain IDE's which was implemented in claims processing on 10/1/96 (which is NCH weekly process 10/4/96) for service dates beginning 10/1/95. IDE's are always associated with revenue center code '0624'.
NOTE1: Prior to Version H a 'dummy' revenue center code '0624' trailer was created to store IDE's. The IDE number was housed in two fields: HCPCS code and HCPCS initial modifier; the second modifier contained the value 'ID'. There can be up to 7 distinct IDE numbers associated with an '0624' dummy trailer. During the Version H conversion IDE's were moved from the dummy '0624' trailer to this dedicated field.
NOTE2: Effective with Version 'I', this field was renamed to eventually accommodate the National Drug (NDC) and the Universal Product Code (UPC). This field could contain either of these 3 fields (there would never be an instance where more than one would come in on a claim). The size of this field was expanded to X(24) to accommodate either of the new fields (under Version 'H' it was X(7). DATA ANAMOLY/LIMITATION: During an CWFMQA review an edit revealed the IDE was missing. The problem occurs in claim with an NCH weekly process dates of 6/9/00 through 9/8/00. During processing of the new format the program receives the IDE but then blanked out the data.

RVUNT{x} *Revenue Center Unit Count*

where { x } ranges from 1 to 58

A quantitative measure (unit) of the number of times the service or procedure being reported was performed to the revenue center/HCPCS code definition as described an institutional claim.
Depending on type of service, units are measured by of covered days in a particular accommodation, pints of blood, emergency room visits, clinic visits, dialysis treatments (sessions or days), outpatient therapy visits, and outpatient clinical diagnostic laboratory tests.
NOTE1: When revenue center code = '0022' (SNF PPS) the unit
count will reflect the number of covered days for each HIPPS code and, if applicable, the number of visits for each rehab therapy code.

STANDARD ALIAS: REV_CNTR_UNIT_CNT
TITLE ALIAS: UNITS
SOURCE:
CWF

RVRT{x} — *Revenue Center Rate Amount*

where { x } ranges from 1 to 58

Charges relating to unit cost associated with the revenue center code. Exception (encounter data only): If plan (e.g. MCO) does not know the actual rate for the accommodations, $1 will be reported in the field.
NOTE1: For SNF PPS claims (when revenue center code equals '0022'), HCFA has developed a SNF PRICER to compute the rate based on the provider supplied coding for the MDS RUGS III group and assessment type (HIPPS code, stored in revenue center HCPCS code field).
NOTE2: For OP PPS claims, HCFA has developed a PRICER to compute the rate based on the Ambulatory Payment Classification (APC), discount factor, units of service and the wage index.
NOTE3: Under HH PPS (when revenue center code equals '0023'), HCFA has developed a HHA PRICER to compute the rate. On the RAP, the rate is determined using the case mix weight associated with the HIPPS code, adjusting it for the wage index for the beneficiary's site of service, then multiplying the result by 60% or 50%, depending on whether or not the RAP is for a first episode.
On the final claim, the HIPPS code could change the payment if the therapy threshold is not met, or partial episode payment (PEP) adjustment or a significant change in condition (SCIC) adjustment.
In cases of SCICs, there will be more than one '0023' revenue center line, each representing the payment made at each case-mix level.

WGDJ{x} *Revenue Center Coinsurance/Wage Adjusted Coinsurance*

where { x } ranges from 1 to 58

Effective with Version 'I', the amount of coinsurance applicable to the line item service defined by the revenue center and
HCPCS codes. For those services subject to
Outpatient PPS, the applicable coinsurance
is wage adjusted.
NOTE1: This field will have either a zero
(for services for which coinsurance is not
applicable), a regular coinsurance amount
(calculated on either charges or a fee
schedule) or if subject to OP PPS the national
coinsurance amount will be wage adjusted.
The wage adjusted coinsurance is based on the
MSA where the provider is located or assigned
as a result of a reclassification.

RVCHRG{x} — *Revenue Center Total Charge Amount*

where { x } ranges from 1 to 58

The total charges (covered and non-covered) for all
accommodations and services (related to the revenue code)
for a billing period before reduction for the deductible and
coinsurance amounts and before an adjustment for the cost
of
services provided. NOTE: For accommodation revenue
center
total charges must equal the rate times units (days).
EXCEPTIONS:
(1) For SNF RUGS demo claims only (9000 series revenue
center codes), this field contains SNF customary
accommodation charge, (ie., charges related to the
accommodation revenue center code that would have
applicable if the provider had not been participating in the
demo).
(2) For SNF PPS (non demo claims), when revenue center
code
= '0022', the total charges will be zero.
(3) For Home Health PPS (RAPs), when revenue center
code =
'0023', the total charges will equal the dollar amount for
the '0023' line.

(4) For Home Health PPS (final claim), when revenue center code = '0023', the total charges will be the sum of the revenue center code lines (other than '0023').
(5) For encounter data, if the plan (e.g. MCO) does not know the actual charges for the accommodations the total charges will be $1 (rate) times units (days).
