*** DMERC Claim Record

VAR 1 4411 REC

Durable medical equipment (DME) regional carrier (DMERC) claim record for version I of the NCH.

STANDARD ALIAS : DMERC_CLM_REC
SYSTEM ALIAS : UTLDMERI

1. DMERC Claim Fixed Group

341 1 341 GRP

Fixed portion of the durable medical equipment regional carrier (DMERC) claim record for version I of the NCH.

STANDARD ALIAS : DMERC_CLM_FIX_GRP

2. Claim Record Identification Group

8 1 8 GRP

Effective with Version 'I' the record length, version code, record identification, code and NCH derived claim type code were moved to this group for internal NCH processing.

STANDARD ALIAS : CLM_REC_IDENT_GRP

3. Record Length Count

3 1 3 PACK

Effective with Version H, the count (in bytes) of the length of the claim record.

NOTE: During the Version H conversion this field was populated with data throughout history (back to service year 1991).

7. NCH Claim Type Code

2  7  8 CHAR

The code used to identify the type of claim record being processed in NCH.

NOTE1: During the Version H conversion this field was
populated with data throughout history (back to
service year 1991).

NOTE2: During the Version I conversion this field was
expanded to include inpatient 'full' encounter
claims (for service dates after 6/30/97). Placeholders for Physician and Outpatient encounters
(available in NMUD) have also been added.

CODE TABLE : NCH_CLM_TYPE_TB
Effective with Version 'I', this group was added to the carrier and DMERC records to keep fields common across all record types in the same position. Due to OP PPS, several fields on the Institutional record had to be moved to a link group so those same fields had to be moved on the carrier records even though OP PPS only affects institutional claims.

9. Claim Locator Number Group

This number uniquely identifies the beneficiary in the NCH Nearline.

COMMON ALIAS : HIC
STANDARD ALIAS : CLM_LCTR_NUM_GRP

LIMITATIONS :
RRB-issued numbers contain an overpunch in the first position that may appear as a plus zero or A-G. RRB-formatted numbers may cause matching problems on non-IBM machines.

11. NCH Category Equatable Beneficiary Identification Code

The code categorizing groups of BICs representing similar relationships between the beneficiary and the primary wage earner.

The equatable BIC module electronically matches two records that contain different BICs where it is apparent that both are records for the same beneficiary. It validates the BIC and returns a base BIC under which to house the record in the National Claims History (NCH) databases. (All records for a beneficiary are stored under a single BIC.)

55. **Claim Payment Amount**  

| 6 | 228 | 233 | PACK |

Amount of payment made from the Medicare trust fund for the services covered by the claim record. Generally, the amount is calculated by the FI or carrier; and represents what was paid to the institutional provider, physician, or supplier, with the exceptions noted below. **NOTE:** In some situations, a negative claim payment amount may be present; e.g., (1) when a beneficiary is charged the full deductible during a short stay and the deductible exceeded the amount Medicare pays; or (2) when a beneficiary is charged a coinsurance amount during a long stay and the coinsurance amount exceeds the amount Medicare pays (most prevalent situation involves psych hospitals who are paid a daily per diem rate no matter what the charges are.)

Under IP PPS, inpatient hospital services are paid based on a predetermined rate per discharge, using the DRG patient classification system and the PRICER program. On the IP PPS claim, the payment amount includes the DRG outlier approved payment amount, disproportionate share (since 5/1/86), indirect medical education (since 10/1/88), total PPS capital (since 10/1/91). After 4/1/03, the payment amount could also include a "new technology" add-on amount. It does NOT include the pass-thru amounts (i.e., capital-related costs, direct medical education costs, kidney acquisition costs, bad debts); or any beneficiary-paid amounts (i.e., deductibles and coinsurance); or any other payer reimbursement.

Under IRFPPS, inpatient rehabilitation services are paid based on a predetermined rate per discharge, using the Case Mix Group (CMG) classification system and the PRICER program. From the CMG on the IRF PPS claim, payment is based on a standard payment amount for operating and capital cost for that facility (including routine and ancillary services). The payment is adjusted for wage, the % of low-income patients (LIP), locality, transfers, interrupted stays, short stay cases, deaths, and high cost outliers. Some or all of these adjustments could
apply. The CMG payment does NOT include certain pass-through costs (i.e. bad debts, approved education activities); beneficiary-paid amounts, other payer reimbursement, and other services outside of the scope of PPS.

Under LTCH PPS, long term care hospital services are paid based on a predetermined rate per discharge based on the DRG and the PRICER program. Payments are based on a single standard Federal rate for both inpatient operating and capital-related costs (including routine and ancillary services), but do NOT include certain pass-through costs (i.e. bad debts, direct medical education, new technologies and blood clotting factors). Adjustments to the payment may occur due to short-stay outliers, interrupted stays, high cost outliers, wage index, and cost of living adjustments.

Under SNF PPS, SNFs will classify beneficiaries using the patient classification system known as RUGS III. For the SNF PPS claim, the SNF PRICER will calculate/return the rate for each revenue center line item with revenue center code = '0022'; multiply the rate times the units count; and then sum the amount payable for all lines with revenue center code '0022' to determine the total claim payment amount.

Under Outpatient PPS, the national ambulatory payment classification (APC) rate that is calculated for each APC group is the basis for determining the total claim payment. The payment amount also includes the outlier payment and interest.

Under Home Health PPS, beneficiaries will be classified into an appropriate case mix category known as the Home Health Resource Group. A HIPPS code is then generated corresponding to the case mix category (HHRG).

For the RAP, the PRICER will determine the payment amount appropriate to the HIPPS code by computing 60% (for first episode) or 50% (for subsequent episodes) of the case mix episode payment. The payment is then wage index adjusted.

For the final claim, PRICER calculates 100% of the amount due, because the final claim is processed as an adjustment to the RAP, reversing the RAP payment in full. Although final claim will show 100% payment amount, the provider will actually receive the 40% or 50% payment. The payment may also include outlier payments.

Exceptions: For claims involving demos and BBA encounter data, the amount reported in this field may not just represent the actual provider payment.

For demo Ids '01', '02', '03', '04' -- claims contain amount paid to the provider, except that special 'differentials' paid outside the normal payment system are not included.

For demo Ids '05', '15' -- encounter data 'claims' contain amount Medicare would have paid under FFS, instead of the actual payment to the MCO.

For demo Ids '06', '07', '08' -- claims contain actual
provider payment but represent a special negotiated bundled payment for both Part A and Part B services. To identify what the conventional provider Part A payment would have been, check value code = 'Y4'. The related noninstitutional (physician/supplier) claims contain what would have been paid had there been no demo.

For BBA encounter data (non-demo) -- 'claims' contain amount Medicare would have paid under FFS, instead of the actual payment to the BBA plan.

Prior to Version H the size of this field was S9(7)V99. Also, the noninstitutional claim records carried this field as a line item. Effective with Version H, this element is a claim level field across all claim types (and the line item field has been renamed.)

**SOURCE : CWF**

**LIMITATIONS :**
Prior to 4/6/93, on inpatient, outpatient, and physician/supplier claims containing a CLM_DISP_CD of '02', the amount shown as the Medicare reimbursement does not take into consideration any CWF automatic adjustments (involving erroneous deductibles in most cases). In as many as 30% of the claims (30% IP, 15% OP, 5% PART B), the reimbursement reported on the claims may be over or under the actual Medicare payment amount.

   1  1  1 CHAR

   NOTE: During the Version H conversion this field was populated throughout history (back to service year 1991).

   COBOL  ALIAS : DEMO_IND
100. Claim Demonstration Identification Number

2  2  3  CHAR

Effective with Version H, the number assigned to identify a demo. This field is also used to denote special processing (a.k.a. Special Processing Number, SPN).

NOTE: Prior to Version H, Demo ID was stored in the redefined Claim Edit Group, 4th occurrence, positions 3 and 4. During the H conversion, this field was populated with data throughout history (as appropriate either by moving ID on Version G or by deriving from specific demo criteria).

01 = Nursing Home Case-Mix and Quality: NHCMQ (RUGS) Demo -- testing PPS for SNFs in 6 states, using a case-mix classification system based on resident characteristics and actual resources used. The claims carry a RUGS indicator and one or more revenue center codes in the 9,000 series.

NOTE1: Effective for SNF claims with NCH weekly process date after 2/8/96 (and service date after 12/31/95) -- beginning 4/97, Demo ID '01' was derived in NCH based on presence of RUGS phase # '2', '3' or '4' on incoming claim; since 7/97, CWF has been adding ID to claim.

NOTE2: During the Version H conversion, Demo ID '01' was populated back to NCH weekly process date 2/9/96 based on the RUGS phase indicator (stored in Claim Edit Group, 3rd occurrence, 4th position, in Version G).

02 = National HHA Prospective Payment Demo -- testing PPS for HHAs in 5 states, using two alternate methods of paying HHAs: per visit by type of HHA visit and per episode of HH care.

NOTE1: Effective for HHA claims with NCH weekly process date after 5/31/95 -- beginning 4/97, Demo ID '02' was derived in NCH based on HCFA/CHPP-supplied listing of provider # and start/stop dates of participants.

NOTE2: During the Version H conversion, Demo ID '02' was populated back to NCH weekly process date 6/95 based on the CHPP criteria.
03 = Telemedicine Demo -- testing covering traditionally noncovered physician services for medical consultation furnished via two-way, interactive video systems (i.e. teleconsultation) in 4 states. The claims contain line items with 'QQ' HCPCS code.

NOTE1: Effective for physician/supplier (nonDMERC) claims with NCH weekly process date after 12/31/96 (and service date after 9/30/96) -- since 7/97, CWF has been adding Demo ID '03' to claim.

NOTE2: During Version H conversion, Demo ID '03' was populated back to NCH weekly process date 1/97 based on the presence of 'QQ' HCPCS on one or more line items.

04 = United Mine Workers of America (UMWA) Managed Care Demo -- testing risk sharing for Part A services, paying special capitation rates for all UMWA beneficiaries residing in 13 designated counties in 3 states. Under the demo, UMWA will waive the 3-day qualifying hospital stay for a SNF admission. The claims contain TOB '18X','21X','28X' and '51X'; condition code = W0; claim MCO paid switch = not 0; and MCO contract # = '90091'.

NOTE: Initially scheduled to be implemented for all SNF claims for admission or services on 1/1/97 or later, CWF did not transmit any Demo ID '04' annotated claims until on or about 2/98.

05 = Medicare Choices (MCO encounter data) demo -- testing expanding the type of Managed Care plans available and different payment methods at 16 MCOs in 9 states. The claims contain one of the specific MCO Plan Contract # assigned to the Choices Demo site.

NOTE1: Effective for all claim types with NCH weekly process date after 7/31/97 -- CWF adds Demo ID '05' to claim based on the presence of the MCO Plan Contract #. ***Demonstration was terminated 12/31/2000.***

NOTE2: During the Version H conversion, Demo ID '05' was populated back to NCH weekly process date 8/97 based on the presence of the Choices indicator (stored as an alpha character crosswalked from MCO plan contract # in the Claim Edit Group, 4th occurrence, 2nd position, in Version 'G').

06 = Coronary Artery Bypass Graft (CABG) Demo -- testing bundled payment (all-inclusive global pricing) for hospital + physician services related to CABG surgery in 7 hospitals in 7 states. The inpatient claims contain a DRG '106' or '107'.

NOTE1: Effective for Inpatient claims and physician/supplier claims with Claim Edit Date no earlier than 6/1/91 (not all CABG sites started at the same time) -- on 5/1/97, CWF started transmitting Demo ID '06' on the claim. The FI adds the ID to the claim based on the presence of DRG '106' or '107' from specific providers for specified time periods; the carrier adds the ID to the claim based on receiving 'Daily Census List' from participating hospitals. ***Demo terminated in 1998.***

NOTE2: During the Version H conversion, any claims where Medicare is the primary payer that were not already identified as Demo ID '06' (stored in the redefined Claim Edit Group, 4th occurrence, positions 3 and 4, Version G) were annotated based on the following criteria: Inpatient - presence of DRG '106' or '107' and a provider number = 220897, 150897, 380897, 450897, 110082, 230156 or 360085 for specified service dates; noninstitutional - presence of HCPCS modifier (initial and/or second) = 'Q2' and a carrier number = 00700, 31143, 00630, 01380, 00900, 01040, 00511, 00710, 00623, or 13630 for specified service dates.

07 = Virginia Cardiac Surgery Initiative (VCSI) (formerly referred to as Medicare Quality Partnerships Demo) -- this is a voluntary consortium of the cardiac surgery physician groups and the non-Veterans Administration hospitals providing open heart surgical services in the Commonwealth of Virginia. The goal of the demo is to share data on quality and process innovations in an attempt to improve the care for all cardiac patients. The demonstration only affects those FIs that process claims from hospitals in Virginia and the carriers that process claims from physicians providing inpatient services at those hospitals. The hospitals will be reimbursed on a global payment basis for selected cardiac surgical diagnoses related groups (DRGs). The inpatient claims will contain a DRG '104', '105', '106', '107', '109'; the related physician/supplier claims will contain the claim payment denial reason code = 'D'.

NOTE: The implementation date for this demo is 4/1/03. The FI will annotate the claim with the demo id add Demo ID '07' to claim. For carrier claims, the Standard Systems will annotate the claim with the '07' demo number.

08 = Provider Partnership Demo -- testing per-case payment approaches for acute inpatient hospitalizations, making a lump-sum payment (combining the normal Part A PPS payment with the Part B allowed charges into a single fee schedule) to a Physician/Hospital Organization for all Part A and Part B services associated with a hospital admission. From 3 to 6 hospitals
in the Northeast and Mid-Atlantic regions may participate in the demo.

NOTE: The demo is on HOLD. The FI and carrier will add Demo ID '08' to claim.

15 = ESRD Managed Care (MCO encounter data) -- testing open enrollment of ESRD beneficiaries and capitation rates adjusted for patient treatment needs at 3 MCOs in 3 States. The claims contain one of the specific MCO Plan Contract # assigned to the ESRD demo site.

NOTE: Effective 10/1/97 (but not actually implemented at a site until 1/1/98) for all claim types -- the FI and carrier add Demo ID '15' to claim based on the presence of the MCO plan contract #.

30 = Lung Volume Reduction Surgery (LVRS) or National Emphysema Treatment Trial (NETT) Clinical Study -- evaluating the effectiveness of LVRS and maximum medical therapy (including pulmonary rehab) for Medicare beneficiaries in last stages of emphysema at 18 hospitals nationally, in collaboration with NIH.

NOTE: Effective for all claim types (except DMERC) with NCH weekly process date after 2/27/98 (and service date after 10/31/97) -- the FI adds Demo ID '30' based on the presence of a condition code = EY; the participating physician (not the carrier) adds ID to the noninstitutional claim. DUE TO THE SENSITIVE NATURE OF THIS CLINICAL TRIAL AND UNDER THE TERMS OF THE INTERAGENCY AGREEMENT WITH NIH, THESE CLAIMS ARE PROCESSED BY CWF AND TRANSMITTED TO HCFA BUT NOT STORED IN THE NEARLINE FILE (access is restricted to study evaluators only).

31 = VA Pricing Special Processing (SPN) -- not really a demo but special request from VA due to court settlement; not Medicare services but VA inpatient and physician services submitted to FI 00400 and Carrier 00900 to obtain Medicare pricing -- CWF WILL PROCESS VA CLAIMS ANNOTATED WITH DEMO ID '31', BUT WILL NOT TRANSMIT TO HCFA (not in Nearline File).

37 = Medicare Coordinated Care Demonstration -- to test whether coordinated care services furnished to certain beneficiaries improve outcomes of care and reduce Medicare expenditures under Part A and Part B. There will be at least 16 Coordinated Care Entities (CCEs). The selected entities will be assigned a provider number specifically for the demonstration services.

NOTE: All claims will be processed by two carriers; no FI processing.

38 = Physician Encounter Claims - the purpose of this
demo id is to identify the physician encounter claims being processed at the HCFA Data Center (HDC). This number will help EDS in making the claim go through the appropriate processing logic, which differs from that for fee-for-service. **NOT IN NCH -- AVAILABLE IN NMUD.**

NOTE: Effective October, 2000. Demo ids will not be assigned to Inpatient and Outpatient encounter claims.

39 = Centralized Billing of Flu and PPV Claims -- The purpose of this demo is to facilitate the processing carrier, Trailblazers, paying flu and PPV claims based on payment localities. Providers will be giving the shots throughout the country and transmitting the claims to Trailblazers for processing.

NOTE: Effective October, 2000 for carrier claims.

40 = Payment of Physician and Nonphysician Services in certain Indian Providers -- the purpose of this demo is to extend payment for services of physician and nonphysician practitioners furnished in hospitals and ambulatory care clinics. Prior to the legislation change in BIPA, reimbursement for Medicare services provided in IHS facilities was limited to services provided in hospitals and skilled nursing facilities. This change will allow payment for IHS, Tribe and Tribal Organization providers under the Medicare physician fee schedule.

NOTE: Effective July 1, 2001 for institutional and carrier claims.

The Health Care Common Procedure Coding System (HCPCS) is a collection of codes that represent procedures, supplies, products and services which may be provided to Medicare beneficiaries and to individuals enrolled in private health insurance programs. The codes are divided into three levels, or groups as described below:

Level I
Codes and descriptors copyrighted by the American Medical Association's Current Procedural Terminology, Fourth Edition (CPT-4). These are 5 position numeric codes representing physician and nonphysician services.

**** Note: ****
CPT-4 codes including both long and short descriptions shall be used in accordance with the CMS/AMA agreement. Any other use violates the AMA copyright.

Level II
Includes codes and descriptors copyrighted by the American Dental Association's Current Dental Terminology, Third Edition (CDT-3). These are 5 position alpha-numeric codes comprising the D series. All other level II codes and
descriptors are approved and maintained jointly by the alpha-numeric editorial panel (consisting of CMS, the Health Insurance Association of America, and the Blue Cross and Blue Shield Association). These are 5 position alpha-numeric codes representing primarily items and nonphysician services that are not represented in the level I codes.

**Level III**
Codes and descriptors developed by Medicare carriers for use at the local (carrier) level. These are 5 position alpha-numeric codes in the W, X, Y or Z series representing physician and nonphysician services that are not represented in the level I or level II codes.

    7  77  83  CHAR

Effective with Version H, the exemption number assigned by the Food and Drug Administration (FDA) to an investigational device after a manufacturer has been approved by FDA to conduct a clinical trial on that device. NOTE: Prior to Version H a dummy line item was created in the last occurrence of line item group to store IDE. The IDE number was housed in two fields: HCPCS code and HCPCS initial modifier, the second modifier contained the value 'ID'. There will be only one distinct IDE number reported on the non-institutional claim. During the Version H conversion, the IDE was moved from the dummy line item to its own dedicated field for each line item (i.e., the IDE was repeated on all line items on the claim.)

tion of this field where the claim was missing revenue center code = '0001'. In 1994, patch was applied to the OP and HHA SAFs only. (This SAF patch indicator was stored in the redefined Claim Edit Group, 4th occurrence, position 2). During the 'H' conversion, patch applied to Nearline claims where garbage or nonnumeric values.

04 = Incorrect bene residence SSA standard county code '999' changed (all claim types) -- applied during the Nearline 'G' conversion and ongoing through 4/21/94, calling EQSTZIP routine to claims with NCH weekly process date prior to 4/22/94. Prior to Version 'H' patch indicator stored in redefined Claim Edit Group, 3rd occurrence, position 4.

05 = Wrong century bene birth date corrected (all claim types) -- applied during Nearline 'H' conversion to all history where century greater than 1700 and less than 1850; if century less than 1700, zeroes moved.

06 = Inconsistent CWF bene medicare status code made consistent with age (all claim types) -- applied during Nearline 'H' conversion to all history and patched ongoing. Bene age is calculated to determine the correct value; if greater than 64, 1st position MSC = '1'; if less than 65, 1st position MSC = '2'.

07 = Missing CWF bene medicare status code derived (all claim types) -- applied during Nearline 'H' conversion to all history and patched ongoing, except claims with unknown DOB and/or Claim From Date = '0' (left blank). Bene age is calculated to determine missing value; if greater than 64, MSC = '10'; if less than 65, MSC = '20'.

08 = Invalid NCH primary payer code set to blanks (Instnl) -- applied during Version 'H' conversion to claims with NCH weekly process date 10/1/93-10/30/95, where MSP values = invalid '0', '1', '2', '3' or '4' (caused by erroneous logic in HCFA program code, which was corrected on 11/1/95).

09 = Zero CWF claim accretion date replaced with NCH weekly process date (all claim types) -- applied during Version 'H' conversion to Instnl and DMERC claims; applied during Version 'G' conversion to non-institutional (non-DMERC) claims. Prior to Version 'H', patch indicator stored in redefined claim edit group, 3rd occurrence, position 1.

10 = Multiple Revenue Center 0001 (Outpatient, HHA and Hospice) -- patch applied to 1998 & 1999 Nearline and SAFs to delete any revenue codes that followed the first '0001' revenue center code. The edit was applied across all institutional claim types, including Inpatient/SNF (the problem was only found with OP/HHA/Hospice claims). The problem was corrected 6/25/99.

11 = Truncated claim total charge amount in the fixed portion replaced with the total charge
amount in the revenue center 0001 amount field -- service years 1998 & 1999 patched during quarterly merge. The 1998 & 1999 SAFs were corrected when finalized in 7/99. The patch was done for records with NCH Daily Process Date 1/4/99 - 5/14/99.

12 = Missing claim-level HHA Total Visit Count -- service years 1998, 1999 & 2000 patch applied during Version 'I' conversion of both the Nearline and SAFs. Problem occurs in those claims recovered during the missing claims effort.

13 = Inconsistent Claim MCO Paid Switch made consistent with criteria used to identify an inpatient encounter claim -- if MCO paid switch equal to blank or '0' and ALL conditions are met to indicate an inpatient encounter claim (bene enrolled in a risk MCO during the service period), change the switch to a '1'. The patch was applied during the Version 'I' conversion, for claims back to 7/1/97 service thru date.

14 = SNF claims incorrectly identified as Inpatient Encounter claims -- SNF claims matching the Inpatient encounter data criteria were incorrectly identified as Inpatient encounter claims (claim type code = '61' instead of '20' or '30'). NOTE: if the SNF claims were identified the MCO paid switch was set to '1'. The patch applied during the Version 'I' conversion, for claims back to 7/1/97 service thru date.

15 = HHA Part A claims with overlaid revenue center lines - During the Version 'I' conversion, NCH made each segment of a claim contains a maximum of 45 revenue lines. During the month of June 2000 our CWFMQA had to be ready to except the new expanded format, but the NCH was not ready. CWFMQA converted these 'I' claims back to Version 'H', a typo in the code caused the additional revenue lines to overlay some of the revenue lines on the base/initial record/segment. The problem occurred in claims with NCH Weekly Process Date ranging from 7/7/2000 - 1/26/2001. The patch applied date is 03/30/2001.

In the Version 'I' files, the annual service year 2000 files, service year 1999 and 1998 trickles were patched. The 18-month service year 1999 was also patched (the service year 2000 SAF was created after the fix was applied).

The patch applied date is 06/29/2001.

LIMITATIONS APPENDIX FOR RECORD: DMERC_CLM_I_REC
AS OF: 04/07/2003

CHOICES_DEMO_LIM
FULL NAME: Choices Demonstration Limitation
DESCRIPTION:
A programming error created an 'INVALID' indication in the demo text field for CHOICES claims.
BACKGROUND:
In 6/00, the CWFMQA front-end editing revealed that some CHOICES demo claims were coming in with a valid 'H' number in the fixed portion of the claims, but in the first occurrence MCO trailer a numeric packed field (value hex '0100000C') was moved to the MCO Contract Number/Option Code fields. This created an invalid period check of number/code to MCO effective date, resulting in an INVALID indication in the demo info text field.
CORRECTIVE ACTION:
The problem was forwarded to the CWF BSOG staff for further investigation.

PMT_AMT_EXCEDG_CHRG_AMT_LIM
FULL NAME: Claim Payment Amount Exceeding Total Charge Amount Limitation
DESCRIPTION:
Approximately 75 Inpatient claims had a reimbursement amount exceed $500,000 which was at least 25 times the total charge amount. There were also claims where the reimbursement was less than $500,000 but greater than the total charges.
BACKGROUND:
In November of 1999, it was brought to the attention of the HDUG that large reimbursement amounts were being paid in Pennsylvania. There were 75 inpatient claims provided where the reimbursement amount was over $500,000 and at least 25 times the total charge amount. These claims were processed between 9/29/98 and 10/1/98. There were also claims identified with
reimbursement less than $500,000 but greater than total charge. It was later discovered that the source of the problem was an error in entering an MSA; the decimal point was off by 2 positions.

Because there were no changes in utilization, the claims were corrected and the correct payments distributed, but the new payment amounts were never sent to CWF (not in NCH). There is currently no requirement that FIs and carriers update CWF with final payment information by submitting payment only adjustments. It was noted that there is no expectation that CWF will have final payment information for claims.

CORRECTIVE ACTION:
According to Veritus (FI), the problem was caught in their system using a pre-payment edit prior to sending out the payments. The erroneous MSA value was corrected and the claims were then sent to PRICER again and paid correctly.

The claims were corrected and correct payments were made but these new payment amounts were never sent to CWF and are not reflected in the NCH.
