Recode:	Yes
Universe:	HHX ne ' '
Universe Description:	All households
Sources:	
Question ID:	
Keywords:	
Notes:	Information about the 2013 NCHS Urban-Rural classification scheme for counties is available at https://www.cdc.gov/nchs/data_access/urban_rural.htm . Large central metro are counties (or county equivalents) in metropolitan statistical areas (MSA) of 1 million or more population that 1) contain the entire population of the largest principal city of the MSA, or 2) are completely contained in the largest principal city of the MSA, or 3) contain at least 250,000 residents of any principal city of the MSA. Large fringe metro are counties (or county equivalents) in MSAs of 1 million or more population that do not qualify as large central. Medium and small metro are counties (or county equivalents) in MSAs of 250,000 to 999,999 population or in MSAs of less than 250,000 population. Nonmetropolitan are counties (or county equivalents) in micropolitan statistical areas and non-core counties.
Evaluation Report:	

Unweighted frequencies:

URBRRL 2013 NCHS Urban-Rural Classification Scheme for Counties

Code	Description	Frequency	Percent
1	Large central metro	8321	30.09

Data Type:	Numeric
Length:	1
Question Text:	^AreIs ^youALIAS less than 65 years old or 65 years or older?
Fills:	^AreIs Are/Is ^youALIAS you/^ALIASNAME ^ALIASNAME {Value of ALIAS}
Description:	Age 65 or older
Recode:	
Universe:	AGE18=2
Universe Description:	Person is 18 years or older but refused or don't know specific age
Sources:	
Question ID:	HHC.0240.00.1
Keywords:	
Notes:	This variable is collected during rostering from a household respondent who answered refuse or don't know to the age of a household member who is subsequently selected as the Sample Adult, and for whom the household respondent indicated that the person is 18 and over. AGE65 may be inconsistent with AGEP_A because AGEP_A is confirmed with the Sample Adult respondent and uses date of birth to verify age. Analysts may use AGE65 when AGEP_A is unknown for categorizing Sample Adults less than age 65 and 65 and over.
Evaluation Report:	

Unweighted frequencies:

AGE65 Age 65 or older

Code	Description	Frequency	Percent

Description:	Categorical Body Mass Index, Public Use
Recode:	Yes
Universe:	HHSTAT_A=1
Universe Description:	Sample adults 18+
Sources:	BMI_A; BMI_A_1
Question ID:	
Keywords:	Body Mass Index; height; weight; BMI category; underweight; healthy weight; overweight; obese; obesity
Notes:	BMI was calculated using the inhouse version of the height and weight variables, which contain the greater range of height and weight values than are available on the public use file. The range of possible BMI values listed (0001-9994) does not reflect actual calculated BMI values at the extremes of the range, but rather, allows for the theoretical possibility of such unlikely values. BMI = [Weight (kg)/[Height (m) squared]] rounded to 2 decimal places. Conversion factors: 1 kilogram (kg) = 2.20462 pounds; 1 meter (m) = 39.37008 inches. For both men and women, underweight is BMI < 18.5; healthy weight is BMI 18.5 to <25; overweight is BMI >= 25 to <30; obese is BMI >= 30.

Question ID:	
Keywords:	Washington Group Questions; disability; composite disability indicator; disability index
Notes:	The final recode variable created for Washington Group Adult Composite Disability Indicator. Disability is defined by the reported level of difficulty (no difficulty, some difficulty, a lot of difficulty, or cannot do at all) in six functioning domains: seeing (even if wearing glasses), hearing (even if wearing hearing aids), mobility (walking or climbing stairs), communication (understanding or being understood by others), cognition (remembering or concentrating), and self-care (such as washing all over or dressing). Sample adults who responded "a lot of difficulty" or "cannot do at all" to at least one question were considered to have a disability.

PUBLIC USE

Variable:	EMPWKHRS3_A
Module:	Adult
Section:	EMP : Employment
File(s):	Adult
Data Type:	Numeric
Length:	2
Question Text:	
Description:	Hours worked per week (topcoded for Public Use)
Recode:	Yes
Universe:	HHSTAT_A=1 and (EMPLASTWK_A=1 or EMPNOWRK_A=1 or EMPWHYNOT_A=7 or (EMPWHYNOT_A=2 and EMPWHENWRK_A=1))
Universe Description:	Sample adults 18+ who were working at or were on temporary leave from a paid job or business last week, or worked but not for pay at a family business or had seasonal/contract work in the past 12 months
Sources:	EMPHOURS_A
Question ID:	
Keywords:	work hours; work schedule; weekly hours
Notes:	Hours worked in a usual week are topcoded at 95 for confidentiality. Note that this recode was updated starting in 2021 and is not directly comparable to the EMPWKHRS2_A recode in 2020, which coded all seasonal/contract workers and those working at a job or business but not for pay as 98 because they were not asked about their work hours.
Evaluation Report:	

Unweighted frequencies:

EMPWKHRS3_A Hours worked per week (topcoded for Public Use)

Question ID:	
Keywords:	food security
Notes:	The food security status of the household was determined by responses to 10 food security questions (FDSRUNOUT_C/FDSRUNOUT_C through FDSNEDAYS_A/FDSNEDAYS_C) asked in the adult or child interview. The questions measured the households' food situation based on the past 30 days.
Evaluation Report:

Question Text:	<p>^HOUGVT paying lower rent because the Federal, State, or local government is paying part of the cost?</p> <p><i>* Read if necessary: Federal, State, or Local government housing programs for persons with low income may take many forms. Government housing assistance could come from monetary assistance to help pay rent, a program called "Section 8," direct payments to landlords, vouchers, or other types of assistance from a local housing authority. Living in public housing is considered housing assistance from the government.</i></p>
