ICD-10-CM INDEX TO DISEASES and INJURIES

2014 Addenda

KEY:

New or Revised text: Underlined

Deleted text: ~~Strikeout~~

[A](#) | [B](#) | [C](#) | [D](#) | [E](#) | [F](#) | [G](#) | [H](#) | [I](#) | [L](#) | [M](#) | [N](#) | [O](#) | [P](#) | [R](#) | [S](#) | [T](#) | [U](#) | [V](#) | [W](#)

A

Abnormal, abnormality, abnormalities - see also Anomaly

- specimen
- - female genital organs (secretions) (smears) R87.9
- - - cytology R87.69
- - - - cervix R87.619
- - - - - specified NEC R87.89618

Abortion (complete) (spontaneous) O03.9

- with retained products of conception - see Abortion, incomplete
- with
- - retained products of conception - see Abortion, incomplete

Absorption

- chemical - see Table of drugs and chemicals Drugs and Chemicals
- drug NEC - see Table of drugs and chemicals Drugs and Chemicals
- noxious substance - see Table of drugs and chemicals Drugs and Chemicals
- toxic substance - see Table of drugs and chemicals Drugs and Chemicals

Adverse effect - see Table of drugs and chemicals Drugs and Chemicals, categories T36-T50, with 6th character 5

Agnesis

- oesophagus Q39.8

Alcohol, alcoholic, alcohol-induced

- poisoning, accidental (acute) NEC - see Table of drugs and chemicals Drugs and Chemicals, alcohol, poisoning

Allergy, allergic (reaction) (to) T78.40

- alveolitis (extrinsic) J67.9
- - due to
- - - Cryptostroma corticale J67.56
- drug, medicament & biological (any) (external) (internal) T78.40
- - correct substance properly administered - see Table of drugs and chemicals Drugs and Chemicals, by drug, adverse effect
- - wrong substance given or taken NEC (by accident) - see Table of drugs and chemicals Drugs and Chemicals, by drug, poisoning
- wheat - see Allergy, food

Alymphocytosis D72.8210

Anemia (essential) (general) (hemoglobin deficiency) (infantile) (primary) (profound) D64.9

- refractory D46.4
- - sideropenic D50.89

Anesthesia, anesthetic R20.0

- complication or reaction NEC (see also Complications, anesthesia) T88.59
- - due to
- - - correct substance properly administered - see Table of drugs and chemicals Drugs and Chemicals, by drug, adverse effect
- - - overdose or wrong substance given - see Table of drugs and chemicals Drugs and Chemicals, by drug, poisoning

Anomaly, anomalous (congenital) (unspecified type) Q89.9

- leucocytes, genetic D72.0
- - granulation (constitutional) D72.0
- leukocytes, genetic D72.0
- - granulation (constitutional) D72.0

Appendicitis (pneumococcal) (retrocecal) K37

- with
- - peritoneal abscess K35.3
- - - with peritonitis K35.2
- - peritonitis K35.2

- - - with perforation or rupture K35.2
- - - generalized K35.2
- - - localized K35.3
- - peritonitis NEC K35.3
- - - generalized (with perforation or rupture) K35.2
- - - localized (with perforation or rupture) K35.3
- acute (catarrhal) (fulminating) (gangrenous) (obstructive) (retrocecal) (suppurative) K35.80
- - with
 - - - perforation or rupture K35.2
 - - - peritoneal abscess K35.3
 - - - - with peritonitis K35.2
 - - - peritonitis K35.2
 - - - - with perforation or rupture K35.2
 - - - - localized K35.3
 - - - - generalized K35.2
 - - - peritonitis NEC K35.3
 - - - - generalized (with perforation or rupture) K35.2
 - - - - localized (with perforation or rupture) K35.3

Argyria, argyriasis

- from drug or medicament - see Table of drugs and eDrugs and Chemicals, by substance

Arrest, arrested

- cardiac I46.9
- - complicating
 - - - anesthesia (general) (local) or other sedation - see Table of drugs and eDrugs and Chemicals, by drug,

Arsenical pigmentation L81.8

- from drug or medicament - see Table of drugs and medicament Drugs and Chemicals

Arthritis, arthritic (acute) (chronic) (nonpyogenic) (subacute) M19.90

- juvenile M08.90
- - specified type NEC M08.80
 - - - vertebrae M08.88

Arthropathy (see also Arthritis) M12.9

- post-rheumatic, chronic (Jaccoud) M12.00
- - vertebrae M12.08
- - specified form NEC M12.80
 - - - vertebrae M12.88
- traumatic M12.50
 - - vertebrae M12.58

Arthus' phenomenon or reaction T78.41

- due to
 - - drug - see Table of drugs and eDrugs and Chemicals, by drug

Asphyxia, asphyxiation (by) R09.01

- gas, fumes, or vapor - see Table of drugs and eDrugs and Chemicals

Aspiration

- food or foreign body (with asphyxiation) --see Asphyxia, food

Ataxia, ataxy, ataxic R27.0

- gluten M35.9 [G32.81]
- - with celiac disease K90.0 [G32.81]

Atresia, atretic

- oesophagus Q39.0
- - with tracheoesophageal fistula Q39.1

B

Bleeding - see also Hemorrhage

- postoperative - see--see Complication, postprocedural, hemorrhage

Bowen's

- dermatosis (precancerous) --see Neoplasm, skin, in situ
- type
 - - epidermoid carcinoma-in-situ --see Neoplasm, skin, in situ

Brickmakers' anemia B76.9[D63.8]

Bromidism, bromism G92

- due to

- - correct substance properly administered - see [Table of drugs and eDrugs and Chemicals](#), by drug, adverse effect
- - overdose or wrong substance given or taken - see [Table of drugs and eDrugs and Chemicals](#), by drug, poisoning

Burn (electricity) (flame) (hot gas, liquid or hot object) (radiation) (steam) (thermal) T30.0

- inhalation - see Burn, respiratory tract

- - caustic or corrosive substance (fumes) --see Corrosion, respiratory tract

C

Calcification

- adrenal (capsule) (gland) E27.49

- - tuberculous B90.8 [[E35](#)[E35](#) [[B90.8](#)]

- kidney N28.89

- - tuberculous B90.1 [[N29](#)[N29](#) [[B90.1](#)]

Cancer - see also Neoplasm, by site, malignant

- lung (see also Neoplasm, lung, malignant) C34.90-

- ovarian (see also Neoplasm ovary, malignant) C56.9-

Carcinoma (malignant) - see also Neoplasm, by site, malignant

- basal-squamous cell, mixed --see Neoplasm, skin, malignant

- epidermoid - see also [Carcinoma, squamous cell Neoplasm, skin malignant](#)

Cataract (cortical) (immature) (incipient) H26.9

- senile H25.9

- - polar subcapsular (anterior) (posterior) --see Cataract, senile, incipient

Cinchonism - see Deafness, ototoxic

- correct substance properly administered - see [Table of drugs and eDrugs and Chemicals](#), by drug, adverse effect

- overdose or wrong substance given or taken - see [Table of drugs and eDrugs and Chemicals](#), by drug, poisoning

Colitis (acute) (catarrhal) (chronic) (noninfective) (hemorrhagic) (see also Enteritis) K52.9

- polyposa - see Polyps, colon, inflammatory

- ulcerative (chronic) K51.90

- - pseudopolyposis - see Polyps, colon, inflammatory

Collapse R55

- postoperative (cardiovascular) T81.11 [T81.10](#)

Coma R40.20

- Glasgow, scale score - see Glasgow coma scale

- specified NEC, without documented Glasgow coma scale score, or with partial Glasgow coma scale score reported

[R40.244](#)

- Glasgow, scale score - see Glasgow coma scale

- specified NEC, without documented Glasgow coma scale score, or with partial Glasgow coma scale score reported

[R40.244](#)

Compartment syndrome (deep) (posterior) (traumatic) T79.A0

- nontraumatic

- - upper extremity (shoulder, arm, forearm, wrist, hand, fingers) - [M79.A1](#) [M79.A1-](#)

Complication(s) (from) (of)

- fixation device, internal (orthopedic) T84.9

- - specified type NEC T84.89

- heart I51.9

- - following acute myocardial infarction --see Complications, following, acute myocardial infarction

- joint prosthesis, internal T84.9

- - specified joint NEC T84.89

- medical procedures (see also [Complication\(s\)](#), intraoperative) T88.9

- postprocedural - see also Complications, surgical procedure

- - hemorrhage (hematoma) (of)

- - - nervous system

- - - - during a nervous system procedure G97.51

- - - - during other procedure G97.52

- - - - following a nervous system procedure G97.51

- - - - following other procedure G97.52

- - - respiratory system

- - - - during procedure on respiratory system organ or structure J95.830

- - - - during other procedure J95.834
- - - - following other procedure J95.831
- - - - following procedure on respiratory system organ or structure J95.830

Concussion (brain) (cerebral) (current) S06.0X-

- conus medullaris S34.43902

Conflagration - see also Burn

- asphyxia (by inhalation of gases, fumes or vapors) (see also Table of drugs and eDrugs and Chemicals) T59.9-

Constipation (atonic) (neurogenic) (simple) (spastic) K59.00

- drug-induced - see Table of drugs and eDrugs and Chemicals

Contact (with) - see also Exposure (to- see also Exposure (to)

- fiberglass - see Table of drugs and eDrugs and Chemicals, fiberglass

Contusion (skin surface intact) T14.8

- mesosalpinx S37.529892

- - bilateral S37.522

- - unilateral S37.521

- pelvic organ S37.92

- - prostate S37.8232

Convulsions (idiopathic) (see also Seizure(s) (see also Seizure(s)) R56.9

- ether (anesthetic) - see Table of drugs and eDrugs and Chemicals, by drug

Cracked nipple N64.0

- associated with

- - puerperium O92.12

Crisis

- nitritoid I95.2

- - correct substance properly administered - see Table of drugs and eDrugs and Chemicals, by drug, adverse effect

- - overdose or wrong substance given or taken - see Table of drugs and eDrugs and Chemicals, by drug, poisoning

Cushingoid due to steroid therapy E24.2

- correct substance properly administered - see Table of drugs and eDrugs and Chemicals, by drug, adverse effect

- overdose or wrong substance given or taken - see Table of drugs and eDrugs and Chemicals, by drug, poisoning

Cyst (colloid) (mucous) (simple) (retention)

- jaw (bone)(aneurysmal)(hemorrhagic)(traumatic)M27.40

- - aneurysmal M27.49

- - hemorrhagic M27.49

- - traumatic M27.49

D

Defect, defective Q89.9

- diaphragm

- - with elevation, eventration or hernia --see Hernia, diaphragm

Deformity Q89.9

- epididymis (congenital) Q55.4

- - acquired N50.38

- intervertebral cartilage or disc (acquired) --see Disorder, disc, specified NEC

Degeneration, degenerative

- intervertebral disc NOS

- - lumbosacral region M51.37

- - - with

- - - - myelopathy M51.07

Delivery (childbirth) (labor)

- complicated O75.9

- - by

- - - placenta, placental

- - - - increta O43.22O43.22-

- - - - percreta O43.23O43.23-

Dementia (degenerative (primary)) (old age) (persisting) F03.90

- in (due to)

- - Creutzfeldt-Jakob disease) (see also Creutzfeldt-Jakob disease or syndrome (with dementia)(see also Creutzfeldt-Jakob disease or syndrome (with dementia)) A81.00

Dependence (on) (syndrome) F19.20

- on
- - artificial heart (fully implantable) (mechanical) Z95.812

Derangement

- knee (recurrent) M23.9-
- - meniscus M23.30-
- - - cystic M23.00-
- - - - lateral M23.02-02
- - - - medial M23.00-5

Dermatitis (eczematous) L30.9

- contact (occupational) L25.9
- - due to
- - - cement L25.3
- - irritant L24.9
- - - due to
- - - - cement L25.3
- due to
- - alcohol (irritant) (skin contact) (substances in T51.00-T51.93category T51) L24.2
- - cement (contact) L24.55.3
- - chemical(s) NEC L24.55.3
- - drugs and medicaments (generalized) (internal use) L27.0
- - - specified substance - see Table of drugs and chemicals
- - plastic (contact) L24.55.3
- - solvents (contact) (irritant) (substances in T52.00-T53.93categories T52) L24.2
- - vaccine or vaccination L27.0
- - - specified substance - see Table of drugs and chemicals

Dermatofibroma (lenticulare) --see Neoplasm, skin, benign

Disability, disabilities

- intellectual F79
- - mild (I.Q.50-69) F70
- - moderate (I.Q.35-49) F71
- - severe (I.Q.20-34) F72

Disease, diseased - see also Syndrome

- Guillain-Barré G61.0
- infectious, infective B99.9
- - congenital P37.9
- - - viral P35.9
- - - - specified type NEC P35.8
- intervertebral disc - see also Disorder, disc
- - lumbosacral (with)
- - - myelopathy M51.07
- sexually transmitted A64
- - trichomoniasis - see Trichomoniasis

Disorder (of) - see also Disease

- cannabis use
- - due to drug dependence - see Dependence, drug, cannabis
- disc (intervertebral) M51.9
- - with
- - - myelopathy
- - - - lumbosacral region M51.07
- - - - occipito-atlanto-axial region M50.01
- - - - high cervical region M50.01
- - - radiculopathy
- - - - occipito-atlanto-axial region M50.11
- - - - high cervical region M50.11
- - cervical M50.90
- - - with
- - - - myelopathy M50.00
- - - - - occipito-atlanto-axial region M50.01
- - - - - C2-C3 M50.01
- - - - - C3-C4 M50.01

- C4-C5 M50.02
- C5-C6 M50.02
- C6-C7 M50.02
- C7-T1 M50.03
- high cervical region M50.01
- neuritis, radiculitis or radiculopathy M50.10
- occipito-atlanto-axial region M50.11
- C2-C3 M50.11
- C3-C4 M50.11
- C4-C5 M50.12
- C5-C6 M50.12
- C6-C7 M50.12
- C7-T1 M50.13
- high cervical region M50.11
- C2-C3 M50.91
- C3-C4 M50.91
- C4-C5 M50.92
- C5-C6 M50.92
- C6-C7 M50.92
- C7-T1 M50.93
- degeneration M50.30
- occipito-atlanto-axial region M50.31
- C2-C3 M50.31
- C3-C4 M50.31
- C4-C5 M50.32
- C5-C6 M50.32
- C6-C7 M50.32
- C7-T1 M50.33
- high cervical region M50.31
- displacement M50.20
- occipito-atlanto-axial region M50.21
- C2-C3 M50.21
- C3-C4 M50.21
- C4-C5 M50.22
- C5-C6 M50.22
- C6-C7 M50.22
- C7-T1 M50.23
- high cervical region M50.21
- occipito-atlanto-axial region M50.91
- high cervical region M50.91
- specified type NEC M50.80
- occipito-atlanto-axial region M50.81
- C2-C3 M50.81
- C3-C4 M50.81
- C4-C5 M50.82
- C5-C6 M50.82
- C6-C7 M50.82
- C7-T1 M50.83
- high cervical region M50.81
- extrapyramidal G25.9
- - in diseases classified elsewhere - see category G26
- inflammatory
- - pelvic, in diseases classified elsewhere - see category N74
- movement G25.9
- - in diseases classified elsewhere - see category G26
- oesophagus – see Disorder, esophagus
- opioid use
- - with
- opioid-induced psychotic disorder F11.959
- with

- - - - delusions F11.950
- - - - hallucinations F11.951

Displacement, displaced

- intervertebral disc NEC
- - lumbosacral region M51.27
- - - with
- - - - myelopathy M51.07
- oesophagus (acquired) -- see Displacement, esophagus

Drug

- overdose - see Table of drugs and eDrugs and Chemicals, by drug, poisoning
- poisoning - see Table of drugs and eDrugs and Chemicals, by drug, poisoning
- wrong substance given or taken in error - see Table of drugs and eDrugs and Chemicals, by drug, poisoning

Duplication, duplex - see also Accessory

- oesophagus Q39.8

Dystrophy, dystrophia

- myotonic (myotonica) G71.11

E

Ecchymosis R58

- eyelid (traumatic) ---see Contusion, eyelid

Edema, edematous (infectious) (pitting) (toxic) R60.9

- macula H35.81
- - diabetic - see Diabetes, by type, with, retinopathy, with macular edema
- retina H35.81
- - diabetic - see Diabetes, by type, with, retinopathy, with macular edema

Effect, adverse

- blood (derivatives) (serum) (transfusion) --see Complications, transfusion
- chemical substance - see Table of drugs and eDrugs and Chemicals
- drugs and medicaments T88.7
- - specified drug - see Table of drugs and eDrugs and Chemicals, by drug, adverse effect
- gases, fumes, or vapors T59.9-
- - specified agent - see Table of drugs and eDrugs and Chemicals

Embolism (multiple) (paradoxical) I74.9

- pulmonary (acute) (artery) (vein) I26.99
- - in pregnancy, childbirth or puerperium --see Embolism, obstetric

Encephalitis (chronic) (hemorrhagic) (idiopathic) (nonepidemic) (spurious) (subacute) G04.90

- due to
- - human immunodeficiency virusHIVdisease B20 [G05.3]

Endometritis (decidual) (nonspecific) (purulent) (senile) (atrophic) (suppurative) N71.9

- hyperplastic (see also Hyperplasia, endometrial) N85.00-

Enteritis (acute) (diarrheal) (hemorrhagic) (noninfective) (septic) K52.9

- due to
- - infectious organism (bacterial) (viral) --see Enteritis, infectious
- mucomembranous, myxomembranous --see Syndrome, irritable bowel

Enterostenosis(see also Obstruction, intestine)- see also Obstruction, intestineK56.69

Epidermolysis

- necroticans combustiformis L51.2
- - due to drug - see Table of drugs and eDrugs and Chemicals, by drug

Epididymitis (acute) (nonvenereal) (recurrent) (residual) N45.1

- filarialB74.9(see also Infestation, filarial) B74.9 [N51]

Epilepsy, epileptic, epilepsia (attack) (cerebral) (convulsion) (fit) (seizure) G40.909

- childhood with occipital EEG paroxysms -- see Epilepsy, localization-related, idiopathic
- childhood absence G40.A09
- - intractable G40.A19
- - - with status epilepticus G40.A11
- - - without status epilepticus G40.A19
- - not intractable G40.A09
- - - with status epilepticus G40.A01
- - - without status epilepticus G40.A09

- childhood
- - with occipital EEG paroxysms - see Epilepsy, localization-related, idiopathic
- - absence G40.A09
- - - intractable G40.A19
- - - - with status epilepticus G40.A11
- - - - without status epilepticus G40.A19
- - - not intractable G40.A09
- - - - with status epilepticus G40.A01
- - - - without status epilepticus G40.A09

Epithelioma (malignant) - see also Neoplasm, malignant, by site

- intraepidermal, Jadassohn --see Neoplasm, skin, benign

Escherichia coli (E. coli), as cause of disease classified elsewhere B96.20

- Shiga toxin-producing (with unspecified O group) (STEC) B96.23
- - O157 B96.21
- - O157:H7 with or without confirmation of Shiga toxin-production B96.21
- - specified NEC B96.22
- O157 B96.21
- O157:H7 with or without confirmation of Shiga toxin-production B96.21
- - specified NEC B96.22

Examination (for) (following) (general) (of) (routine) Z00.00

- physical (adult)(see also Examination, medical)- see also Examination, medical Z00.00

Excess, excessive, excessively

- vitamin
- - A (dietary) E67.0
- - - administered as drug (prolonged intake) - see Table of drugs and eDrugs and Chemicals, vitamins, adverse effect
- - - overdose or wrong substance given or taken - see Table of drugs and eDrugs and Chemicals, vitamins, poisoning
- - D (dietary) E67.3
- - - administered as drug (prolonged intake) - see Table of drugs and eDrugs and Chemicals, vitamins, adverse effect
- - - overdose or wrong substance given or taken - see Table of drugs and eDrugs and Chemicals, vitamins, poisoning

Exposure (to) (see also Contact, with) T75.89

- fiberglass - see Table of drugs and eDrugs and Chemicals, fiberglass

F

Failure, failed

- kidney (see also Disease, kidney, chronic) N19
- - acute (see also Failure, renal, acute) N17.9-
- renal N19
- - hypertensive-- see Hypertension, kidney

~~Female genital cutting status - see Female genital mutilation status (FGM)~~

~~Female genital cutting status - see Female genital mutilation status (FGM)~~

Fever (inanimation) (of unknown origin) (persistent) (with chills) (with rigor) R50.9

- due to heat T67.0
- due to conditions classified elsewhere R50.81
- due to
- - conditions classified elsewhere R50.81
- - heat T67.0

Fistula (cutaneous) L98.8

- joint M25.10
- - vertebrae M25.18

Fracture, pathological (pathologic)(see also Fracture, traumatic)- see also Fracture, traumatic M84.40

- due to
- - neoplastic disease NEC (see also Neoplasm) M84.50
- - - specified site NEC M84.58

Fusion, fused (congenital)

- fingers-Q70.0Q70.0-

G

Gangrene, gangrenous (connective tissue) (dropsical) (dry) (moist) (skin) (ulcer) (see also Necrosis) I96

- appendix K35.380

- - with
- - - peritonitis, localized K35.3
- - - - with perforation or rupture K35.2
- - - - generalized K35.2
- - - peritonitis NEC K35.3
- - - - generalized (with perforation or rupture) K35.2
- - - - localized (with perforation or rupture) K35.3

Gas R14.3

- asphyxiation, inhalation, poisoning, suffocation NEC - see Table of drugs and eDrugs and Chemicals

Giant

- oesophagus, congenital Q39.5

Glasgow coma scale

- total score
- - 3-8 R40.243
- - 9-12 R40.242
- - 13-15 R40.244

Glasgow coma scale

- total score
- - 3-8 R40.243
- - 9-12 R40.242
- - 13-15 R40.241

Glomerulonephritis (see also Nephritis) N05.9

- necrotic, necrotizing NEC (see also N00-N07 with fourth character .8) N05.8
- specified pathology NEC (see also N00-N07 with fourth character .8) N05.8

Gout, gouty (acute) (attack) (flare) (see also Gout, chronic) M10.9

- tophi - see Gout by type, chronic

Gout, chronic (see also Gout, gouty) M1A.9

- tophi - see Gout by type M1A.9

H

Hemarthrosis (nontraumatic) M25.00

- vertebrae M25.08

Hematoma (traumatic) (skin surface intact) - see also Contusion

- mesosalpinx (nontraumatic) N83.7
- - traumatic S37.529898
- - - bilateral S37.522
- - - unilateral S37.521
- uterine ligament (broad) (nontraumatic) N83.7
- - traumatic S37.6892

Hematuria R31.9

- due to sulphonamide, sulfonamide - see Table of drugs and eDrugs and Chemicals, by drug

Hemorrhage, hemorrhagic (concealed) R58

- due to or associated with
- - afibrinogenemia or other coagulation defect (conditions in categories D65-D69)
- intracranial (nontraumatic) I62.9
- - intracerebral (nontraumatic) (in) I61.9
- - - postprocedural
- - - - during a nervous system procedure G97.51
- - - - during other procedure G97.52
- - - - following a nervous system procedure G97.51
- - - - following other procedure G97.52
- subgaleal P12.1

Histoplasmosis B39.9

- with pneumonia NEC B39.2[J47]

History

- personal (of) - see also History, family (of)
- - substance abuse NEC F10 - with fifth character 1 F19
- - substance abuse NEC F10-F19 with fifth character 1

Hyperadrenocorticism E24.9

- iatrogenic E24.2
- - correct substance properly administered - see Table of drugs and eDrugs and Chemicals, by drug, adverse effect
- - overdose or wrong substance given or taken - see Table of drugs and eDrugs and Chemicals, by drug, poisoning
- Hypercorticoesteronism E24.2**
- correct substance properly administered - see Table of drugs and eDrugs and Chemicals, by drug, adverse effect
- overdose or wrong substance given or taken - see Table of drugs and eDrugs and Chemicals, by drug, poisoning
- Hypercortisonism E24.2**
- correct substance properly administered - see Table of drugs and eDrugs and Chemicals, by drug, adverse effect
- overdose or wrong substance given or taken - see Table of drugs and eDrugs and Chemicals, by drug, poisoning
- Hyperplasia, hyperplastic**
- glandularis cystica uteri (interstitialis) (see also Hyperplasia, endometrial) N85.00_
- uterus, uterine N85.2
- - endometrium (glandular) (see also Hyperplasia, endometrial) N85.00_
- Hypertension, hypertensive (accelerated) (benign) (essential) (idiopathic) (malignant) (systemic) I10**
- with
- - heart involvement (conditions in I51.4- I51.9 due to hypertension) - see Hypertension, heart
- complicating
