1969 - 1971 NATALITY PROCESSING

Outline of Items and Codes Arranged by Location
in the Final Detail BIRTH Tape Record

PREFACE:

Prior to 1970, natality statistics included all births occurring in
the United States, with births to nonresident aliens assigned to place
of birth. Beginning in 1970, resident natality data refer to births
occurring to residents of the United States only. Tables by place of
occurrence include births to nonresident aliens, so totals will differ
slightly from resident tables.

If your tabulations differ from our published figures, different
handling of nonresident aliens may be responsible.

Codes 52 through 59 in positions 13-14 of the detail natality record
can be used to identify nonresident aliens.
