Notes: In most cases, data on age came from HHC.120. Because age is an
       important variable for instrument check items and in developing the
       weights, all respondents must have data on age. A series of questions
       in the instrument from HHC.124 through HHC.165 attempted to collect
       data on age when age was not given in HHC.120.

Notes: "Other-specify" responses were assigned to specific groups where
       possible. Respondents who selected the generic "Hispanic/Spanish"
       response category were assigned "08", and in cases where the respondent
       refused to answer Hispanic origin or didn't know it, this variable was
       assigned "09" and "11", respectively. When Hispanic origin was not
       ascertained, this variable was assigned "10". In cases where
       "Other-specify" responses were determined to be non-Hispanic, this
       variable was assigned "12" for not Hispanic/Spanish origin, and ORIGIN
       was back coded to "2" or "No" (no group represented respondent's
       national origin). Respondents coded as "12" answered 2,7,8, or 9 in
