

## Introduction

To protect confidentiality, detailed information for some variables are not available on the NHIS public-use data files. Researchers interested in working with variables that were suppressed or edited to protect confidentiality may submit a proposal to the NCHS Research Data Center (RDC). The RDC is responsible for protecting the confidentiality of survey respondents, study subjects, or institutions while providing access to the restricted-use data for statistical purposes. Additional information is available at: <https://www.cdc.gov/rdc/>.

**Universe Description:**  
**Sources:**  
**Question ID:**  
**Keywords:**

**Notes:** A code used to identify a primary sampling unit (PSU). A PSU is a geographic sampling area made up of one or more contiguous counties. This code is assigned to all PSUs including those not in sample. (Non-sample PSUs aren't on the database.)  
The first two characters correspond to the state within which the SPSU resides. Characters three through five are a unique identifier of the SPSU within the state and do not necessarily correspond to a specific FIPS county.

**Evaluation Report:**

SPSU Stratification PSU (Primary Sampling Unit) Code

Code	Description
01001-56045	Stratification PSU Code
