Keywords: record type

Notes: * The universe for the variables in this file consists of responding families (specified as FM = ALL). There may be more than one responding family per household. Analysts can derive the number of non-responding families in each household from information contained in the household file (refer to the variables REJ_FAM and ACPT_FAM).

Sources: FINWIC (FIN.384); PWIC (FIN.385)
 Recodes: None
 Keywords: income; WIC

Notes: Due to an incorrect CAPI error in Quarters 1 & 2, several families were not asked this question. This question was to be asked of families who had a WIC age-eligible person. However, this question was only asked if the family respondent was a WIC age-eligible person. Analysts should refer to the Survey Description document for additional instructions regarding the analysis of this variable.
