

Healthy People 2010 Operational Definition

6-13. Increase the number of Tribes, States, and the District of Columbia that have public health surveillance and health promotion programs for people with disabilities and caregivers.

6-13b. (Developmental) Tribes - Surveillance programs for people with disabilities.

Comments

Objective 6-13b was retained at the Healthy People 2010 Midcourse Review despite the lack of current data. An operational definition could not be specified at the time of publication.

This subobjective originally addressed surveillance and health promotion programs for people with disabilities and caregivers. The subobjective text was revised to focus on Tribal surveillance programs for people with disabilities.

Tribal organizations, e.g., Tribal EPI Centers, are potential data sources for this subobjective.

See Appendix A for focus area contact information.
