

Healthy People 2010 Operational Definition

23-2. Increase the proportion of Federal, Tribal, State, and local health agencies that have made information available for internal or external public use in the past year based on health indicators related to Healthy People 2010 objectives.

23-2b. Tribal (developmental)

Comments

Objective 23-2 moved from developmental to measurable in June, 2008. Four subobjectives were created, addressing federal, Tribal, State, and local data availability. This subobjective, addressing data availability for Tribes, remains developmental.

An operational definition could not be specified at the time of publication.

Tribal agencies encompass American Indian/Alaska Native health Departments, regional tribal organizations, health boards, and Tribal Epidemiology Centers (Epi Centers).
