

Healthy People 2010 Operational Definition

23-6. Increase the proportion of Healthy People 2010 objectives that are tracked regularly at the national level.

National Data Source	National Center for Health Statistics (NCHS), CDC.
State Data Source	Not applicable.
Healthy People 2000 Objective	Not applicable.
Changes since the 2000 Publication	Revised baseline (see Comments).
Measure	Percent.
Baseline (Year)	44 (2004)
Target	100
Target-Setting Method	Total coverage. For a discussion of target-setting methods, see Part A, section 4.
Numerator	Number of measurable Healthy People 2010 objectives or lettered subobjectives that are tracked nationally at least every 3 years.
Denominator	Number of measurable Healthy People 2010 objectives and lettered subobjectives.
Population Targeted	Not applicable.
Questions Used To Obtain the National Baseline Data	Not applicable.
Expected Periodicity	Annual.
Comments	Measurable Healthy People 2010 objectives and lettered subobjectives that have baseline data are used to obtain the data for this objective. The original baseline was revised from 82 percent (2000) to 44 percent (2004). The original baseline data were based on expected periodicity using the published Tracking Healthy People document. The revised baseline is based on data tracked in DATA2010. The target of 100 percent did not

change.

See Appendix A for focus area contact information.
