Table 7-2. Total Deaths, Infant and Neonatal Deaths and Rates, Fetal Deaths and Ratios, by Color for Population-Size Groups in Metropolitan and Nonmetropolitan Counties: United States and Each State, 1967

[Fetal deaths include only those for which the period of gestation was given as 20 weeks or more or was not stated. Infant (under 1 year) and neonatal (under 28 days) mortality rates and fetal death ratios per 1,000 live births in specified group. Infant and neonatal mortality rates and fetal death ratios are subject to sampling error; see Technical Appendix. Urban places in metropolitan counties are those with populations of 10,000 or more; urban places in nonmetropolitan counties are those with populations of 10,000 or more but less than 50,000. For definition of areas, see Technical Appendix]
