## A COUNTY AND METROPOLITAN AREA DATA BOOK

### INTRODUCTION

This volume is one part of a three-part series containing State and county information on health facilities and health professions.<sup>1</sup> This part provides such information as ownership, number of beds, occupancy rate, and admissions for the various types of hospitals. The tables are presented by State, standard metropolitan statistical area, and county.

The other two volumes in the series are entitled *Nursing Homes: A County and Metropolitan Area Data Book* (PHS Pub. No. 2043, Sec. 2) and *Health Manpower: A County and Metropolitan Area Data Book* (PHS Pub. No. 2044).

The Division of Health Resources Statistics in the National Center for Health Statistics conducts a national statistical program of data collection on all inpatient health facilities in the United States. This data system is called the Master Facility Inventory (MFI) and consists of a computer tape containing the names, addresses, and such basic characteristics of these inpatient facilities as type of business, number of employees, and number of patients or residents. A questionnaire survey is conducted by mail every 2 years among all the MFI facilities in order to have current data on their characteristics. It includes such facilities as hospitals, nursing homes, certain correctional institutions, and homes for

<sup>1</sup> This report was prepared by Alvin Sirrocco, Survey Statistician, Division of Health Resources Statistics.

the blind, the deaf, unwed mothers, dependent children, the physically handicapped, the mentally retarded, and the emotionally disturbed. The data presented in this volume were obtained from the hospital portion of the 1967 MFI survey.

### EXPLANATION OF SMSA'S

A standard metropolitan statistical area is a county or group of contiguous counties which contains at least one city of 50,000 inhabitants or more, or two contiguous cities with a combined population of at least 50,000. In New England, however, SMSA's consist of towns and cities rather than counties. Since town and city information is not available, the SMSA's in New England have been replaced by metropolitan State economic areas, which are defined in terms of whole counties. Those New England State economic areas which make up the SMSA's are as follows:

#### Boston, Massachusetts

Massachusetts State Economic Area C, which includes Boston, Lawrence-Haverhill, and Lowell SMSA's.

#### Bridgeport, Connecticut

Connecticut State Economic Area A, which includes Bridgeport, Stamford, and Norwalk SMSA's.

Brockton, Massachusetts  
Massachusetts State Economic Area D.

Hartford, Connecticut  
Connecticut State Economic Area C, which includes Hartford and New Britain SMSA's.

Lewiston-Auburn, Maine  
No metropolitan State economic area, Androscoggin County is the nearest equivalent to an SMSA.

Manchester, New Hampshire  
New Hampshire State Economic Area A.

New Bedford, Massachusetts  
Massachusetts State Economic Area E, which includes New Bedford and Fall River SMSA's.

New Haven, Connecticut  
Connecticut State Economic Area B, which includes New Haven, Waterbury, and Meriden SMSA's.

New London-Groton-Norwich, Connecticut  
No metropolitan State economic area, New London County is nearest equivalent to an SMSA.

Pittsfield, Massachusetts  
Massachusetts State Economic Area F.

Portland, Maine  
Maine State Economic Area A.

Providence-Pawtucket-Warwick, Rhode Island  
Rhode Island State Economic Area A.

Springfield-Chicopee-Holyoke, Massachusetts  
Massachusetts State Economic Area A.

Worcester, Massachusetts  
Massachusetts State Economic Area B, which includes Worcester and Fitchburg-Leominster SMSA's.

The entire list of the SMSA's and SMSA codes along with the counties which make up each SMSA is given in the appendix.<sup>1</sup>

## SOURCES AND DEFINITIONS

### Sources

The counties and independent cities used in this report were obtained from the geographic identification code scheme of the 1960 Census of Population and Housing.<sup>2</sup> Those independent cities which came into existence after 1960 were not included as such in this report. Instead they remain as part of the respective counties from which they separated. In the same manner the boundaries of the SMSA's as they existed in 1960 were used in this report.

The SMSA and county population figures were obtained from the Bureau of the Census publication *Population Estimates and Projections*, Series P-25, No. 427, July 31, 1969. The population estimates were for July 1, 1966.

### Definitions

A *hospital* is defined as a facility which is licensed by the State as a hospital or operated as a hospital by a Federal or State agency and therefore not subject to State or local licensing laws.

*Average daily census* is the average number of inpatients per day during the year 1966.

*Admissions* are the total number of inpatient admissions during the year 1966.

*Occupancy rate* is the average daily census divided by the number of hospital beds.

<sup>1</sup> National Vital Statistics Division: Supplement No. 3 to Section C, Geographic Code--1960-61 (final), Part II, *Vital Statistics Instruction Manual*. Public Health Service. Washington, D.C., Dec. 1961.

<sup>2</sup> U.S. Bureau of the Census: *U.S. Censuses of Population and Housing, 1960, Geographic Identification Code Scheme, United States*. PHC(2)-1. Washington. U.S. Government Printing Office, 1961.

*Beds* are defined as the total number of beds regularly maintained (set up and staffed for use) for inpatients. Many psychiatric hospitals are very crowded, often well above the prescribed capacity. However, many of these hospitals have been decreasing their patient population, and as the patients leave, beds that no longer need to be staffed are removed. As a result bed capacity is a continually changing item of information. With

this decrease in population, some hospitals had a much greater patient population at the beginning of 1967 than at the end. Since the MFI survey was conducted near the end of 1967, the bed capacity for these hospitals at the time of the survey was in some cases considerably lower than their average daily patient census for the year. This produced occupancy rates greater than 100 per cent.

Table 3. General hospitals, beds, admissions, and census by ownership, State, and county: 1967—Con.

State and county	1966 population (in thousands)	State and local government				Federal government			
		Hospitals	Beds	Admissions	Average daily census	Hospitals	Beds	Admissions	Average daily census
WYOMING—CON.									
WASHAKIE.....	8	-	-	-	-	-	-	-	-
WESTON.....	6	1	42	1,136	22	-	-	-	
YELLOWSTONE N P.....	---	-	-	-	-	1	20	242	8

Table 3. General hospitals, beds, admissions, and census by ownership, State, and county: 1967—Con.

State and county	1966 population (in thousands)	Proprietary				Nonprofit			
		Hospitals	Beds	Admissions	Average daily census	Hospitals	Beds	Admissions	Average daily census
WYOMING—CON.									
WASHAKIE.....	8	-	-	-	-	1	34	1,518	17
WESTON.....	6	-	-	-	-	-	-	-	-
YELLOWSTONE N P.....	---	1	20	300	9	-	-	-	-

#A number sign (#) by a county name means the county is part of an SMSA.

<sup>1</sup>A zero (0) for a county means the population was less than 500. Three dashes (---) mean the population was not available.

<sup>2</sup>See *Beds* under "Sources and Definitions" for an explanation of why beds are in some cases less than the average daily census.

Table 4. Specialty hospitals, beds, and census by State and county: 1967

State and county	1966 population (in thousands)	Psychiatric hospitals			Geriatric or chronic disease hospitals		
		Hospitals	Beds	Average daily census	Hospitals	Beds	Average daily census

Table 4. Specialty hospitals, beds, and census by State and county: 1967—Con.

State and county	1966 population (in thousands)	Tuberculosis hospitals			All other specialty hospitals		
		Hospitals	Beds	Average daily census	Hospitals	Beds	Average daily census
WYOMING—CON.							
WASHAKIE.....	8	-	-	-	-	-	-
WESTON.....	6	-	-	-	-	-	-
YELLOWSTONE N P.....	---	-	-	-	-	-	-

#A number sign (#) by a county name means the county is part of an SMSA.

<sup>1</sup>A zero (0) for a county means the population was less than 500. Three dashes (---) mean the population was not available.

<sup>2</sup>Does not include hospitals for the mentally retarded.

<sup>3</sup>See *Beds* under "Sources and Definitions" for an explanation of why beds are in some cases less than the average daily census.

**APPENDIX. STANDARD METROPOLITAN STATISTICAL AREAS AND THEIR COUNTIES  
AS THEY EXISTED IN 1960**
