489-490	2	<p><u>Race Recode 40</u></p> <p>This variable is available as of 2018. It provides reported singleton and multiple-race combinations based on the 2003 revision of the death certificate, which reflects 1997 Office of Management and Budget (OMB) race-reporting guidelines. This variable is not directly comparable with previous versions. Note that reporting areas gradually transitioned from the 1989 revision of the death certificate, on which race was reported according to 1977 OMB guidelines, to the 2003 revision during the 2003-2017 period. As of 2018, all reporting areas had completed this transition. The bridged-race variables, which made the two sets of race variables compatible during the transition period, were included on the mortality file through data year 2020 and are not available as of 2021. See National Vital Statistics Reports Volume 70, Number 3, April 2021, Comparability of Race-specific Mortality Data Based on 1977 Versus 1997 Reporting Standards and the Technical Notes of National Vital Statistics Reports Volume 69, Number 13, January 2021.</p>

It provides reported singleton and multiple-race combinations based on the 2003 revision of the death certificate, which reflects 1997 Office of Management and Budget (OMB) race-reporting guidelines. This variable is not directly comparable with previous versions. Note that reporting areas gradually transitioned from the 1989 revision of the death certificate, on which race was reported according to 1977 OMB guidelines, to the 2003 revision during the 2003-2017 period. As of 2018, all reporting areas had
