

Healthy People 2010 Operational Definition

8-17. (Developmental) Increase the number of office buildings that are managed using good indoor air quality practices.

Comments

Objective 8-17 was retained during the Healthy People 2010 Midcourse Review despite the current lack of a national data source. An operational definition could not be specified at the time of publication.

The proposed data source is the Building Assessment Survey and Evaluation (BASE), U.S. Environmental Protection Agency (EPA), Office of Radiation and Indoor Air, (ORIA).

See Appendix A for focus area contact information.
