| Region |  |  |  |
| Northeast | 12.5 (0.61) | 7.9 (0.49) | 6.6 (0.43) |
| Midwest | 16.2 (0.52) | 9.3 (0.48) | 7.0 (0.39) |
| South | 14.1 (0.40) | 9.4 (0.40) | 7.1 (0.30) |
| West | 14.7 (0.51) | 9.0 (0.44) | 6.0 (0.35) |

Table A-6a. Age-adjusted percentages (with standard errors) of hearing trouble, vision trouble, and absence of teeth among adults aged 18 and over, by selected characteristics: United States, 2015

| Selected characteristic | Hearing trouble ${ }^{1}$ | Vision trouble $^{1}$ | Absence of all <br> natural teeth $^{1}$ |
| :--- | ---: | ---: | ---: |
| Hispanic or Latino origin ${ }^{4}$, race, and sex |  |  |  |
| Hispanic or Latino, male | $11.6(0.76)$ | $7.6(0.64)$ | $5.4(0.56)$ |
| Hispanic or Latina, female | $7.4(0.57)$ | $11.0(0.78)$ | $6.8(0.59)$ |
| Not Hispanic or Latino: |  |  |  |
| White, single race, male | $20.4(0.51)$ | $7.4(0.37)$ | $7.1(0.33)$ |
| White, single race, female | $13.0(0.41)$ | $10.7(0.45)$ | $6.7(0.30)$ |
| Black or African American, single race, male | $9.9(0.76)$ | $8.2(0.75)$ | $7.2(0.73)$ |
| Black or African American, single race, female | $8.1(0.62)$ | $12.0(0.77)$ | $8.5(0.63)$ |

* Estimates are considered unreliable. Data preceded by an asterisk have a relative standard error (RSE) greater than $30 \%$ and less than or equal to $50 \%$ and should be used with caution. Data not shown have an RSE greater than $50 \%$.
- Quantity zero.
${ }^{1}$ Respondents were asked, "These next questions are about your hearing without the use of hearing aids or other listening devices. Is your hearing excellent, good, [do you have] a little trouble hearing, moderate trouble, a lot of trouble, or are you deaf?" For this table, "a little trouble hearing," "moderate trouble," "a lot of trouble," and "deaf" are combined into one category. Estimates of hearing trouble for 2015 may not be comparable with estimates from 2006 and earlier
Regarding their vision, respondents were asked, "Do you have any trouble seeing, even when wearing glasses or contact lenses?" Respondents were also asked "Are you blind or unable to see at all?" For this table, "any trouble seeing" and "blind" are combined into one category. Respondents were asked, ""Have you lost all of your upper and lower natural (permanent) teeth?""
A person may be represented in more than one column.
${ }^{2}$ Refers to persons who indicated only a single race group, including those of Hispanic or Latino origin.
${ }^{3}$ Refers to persons who indicated more than one race group, including those of Hispanic or Latino origin. Only two combinations of multiple race groups are shown due to small sample sizes for other combinations.
${ }^{4}$ Refers to persons who are of Hispanic or Latino origin and may be of any race or combination of races. "Not Hispanic or Latino" refers to persons who are not of Hispanic or Latino origin, regardless of race.
${ }^{5}$ Shown only for adults aged 25 and over. Estimates are age adjusted to the projected 2000 U.S. population as the standard population using four age groups: $25-44,45-64,65-74$, and 75 and over.
${ }^{6}$ GED is General Educational Development high school equivalency diploma.
${ }^{7}$ "Full-time" employment is 35 or more hours per week. "Part-time" employment is 34 or fewer hours per week.
${ }^{8}$ Includes persons who reported a dollar amount or who would not provide a dollar amount but provided an income interval.
${ }^{9}$ "Poor" persons are defined as having income below the poverty threshold. "Near poor" persons have incomes of $100 \%$ to less than $200 \%$ of the poverty threshold. "Not poor" persons have incomes that are $200 \%$ of the poverty threshold or greater.
${ }^{10}$ Based on a hierarchy of mutually exclusive categories. Adults with more than one type of health insurance were assigned to the first appropriate category in the hierarchy. "Uninsured" includes adults who had no coverage as well as those who had only Indian Health Service coverage or had only a private plan that paid for one type of service such as accidents or dental care.
${ }^{11}$ MSA is metropolitan statistical area. Large MSAs have a population size of 1 million or more; small MSAs have a population size of less than 1 million. "Not in MSA" consists of persons not living in a metropolitan statistical area.
NOTES: Estimates are based on household interviews of a sample of the civilian noninstitutionalized population. This table is based on data from the Sample Adult file and was weighted using the Sample Adult weight. Unknowns for the columns were not included in the denominators when calculating percentages. Percentages may not add to totals due to rounding. "Total" includes other races not shown separately and persons with unknown education, family income, poverty status, and health insurance characteristics. Unless otherwise specified, estimates are age-adjusted using the projected 2000 U.S. population as the standard population and using four age groups: 18-44, 45-64, 65-74, and 75 and over. Estimates for age groups are not age-adjusted. For more information on the data source, methods, and definitions used for this table, refer to Technical Notes for Summary Health Statistics Tables: National Health Interview Survey (available from http://www.cdc.gov/nchs/nhis/SHS/tables.htm). ${ }^{9}$ "Poor" persons live in families defined as below the poverty threshold. "Near poor" persons live in families with incomes of $100 \%$ to less than $200 \%$ of the poverty threshold. "Not poor" persons live in families with incomes that are $200 \%$ of the poverty threshold or greater.
${ }^{10}$ Based on a hierarchy of mutually exclusive categories. Adults with more than one type of health insurance were assigned to the first appropriate category in the hierarchy. "Uninsured" includes adults who had no coverage as well as those who had only Indian Health Service coverage or had only a private plan that paid for one type of service such as accidents or dental care.
${ }^{11}$ MSA is metropolitan statistical area. Large MSAs have a population size of 1 million or more; small MSAs have a population size of less than 1 million. "Not in MSA" consists of persons not living in a metropolitan statistical area.
NOTES: Estimates are based on household interviews of a sample of the civilian noninstitutionalized population. This table is based on data from the Sample Adult file and was weighted using the Sample Adult weight. Unknowns for the columns were not included in the frequencies, but they are included in the "All adults aged 18 and over" column. "Total" includes other races not shown separately and persons with unknown education, family income, poverty status, and health insurance characteristics. For more information on the data source, methods, and definitions used for this table, refer to Technical Notes for Summary Health Statistics Tables: National Health Interview Survey (available from http://www.cdc.gov/nchs/nhis/SHS/tables.htm). | Not in MSA | 22.1 (0.82) | 11.9 (0.67) | 11.1 (0.69) |
| Region |  |  |  |
| Northeast | 14.1 (0.70) | 8.6 (0.54) | 7.3 (0.49) |
| Midwest | 17.2 (0.56) | 9.6 (0.49) | 7.6 (0.45) |
| South | 15.3 (0.47) | 9.9 (0.43) | 7.7 (0.35) |
| West | 14.7 (0.56) | 9.2 (0.44) | 6.0 (0.37) |

Table A-6c. Crude percentages (with standard errors) of hearing trouble, vision trouble, and absence of teeth among adults aged 18 and over, by selected characteristics: United States, 2015

| Selected characteristic | Hearing trouble $^{1}$ | Vision trouble $^{1}$ | Absence of all <br> natural teeth |
| :--- | ---: | ---: | ---: |
| Hispanic or Latino origin ${ }^{4}$, race, and sex |  |  |  |
| Hispanic or Latino, male | $8.6(0.64)$ | $6.4(0.55)$ | $3.9(0.43)$ |
| Hispanic or Latina, female | $6.4(0.52)$ | $10.3(0.75)$ | $5.2(0.53)$ |
| Not Hispanic or Latino: |  |  |  |
| White, single race, male | $23.1(0.60)$ | $8.0(0.39)$ | $8.0(0.38)$ |
| White, single race, female | $15.3(0.46)$ | $11.6(0.46)$ | $7.9(0.35)$ |
| Black or African American, single race, male | $8.9(0.75)$ | $7.8(0.73)$ | $6.4(0.71)$ |
| Black or African American, single race, female | $7.8(0.62)$ | $12.2(0.80)$ | $8.2(0.66)$ |

* Estimates are considered unreliable. Data preceded by an asterisk have a relative standard error (RSE) greater than 30\% and less than or equal to $50 \%$ and should be used with caution. Data not shown have an RSE greater than $50 \%$. - Quantity zero.
${ }^{1}$ Respondents were asked, "These next questions are about your hearing without the use of hearing aids or other listening devices. Is your hearing excellent, good, [do you have] a little trouble hearing, moderate trouble, a lot of trouble, or are you deaf?" For this table, "a little trouble hearing," "moderate trouble," "a lot of trouble," and "deaf" are combined into one category. Estimates of hearing trouble for 2015 may not be comparable with estimates from 2006 and earlier.
Regarding their vision, respondents were asked, "Do you have any trouble seeing, even when wearing glasses or contact lenses?" Respondents were also asked "Are you blind or unable to see at all?" For this table, "any trouble seeing" and "blind" are combined into one category Respondents were asked, ""Have you lost all of your upper and lower natural (permanent) teeth?"'"
A person may be represented in more than one column.
${ }^{2}$ Refers to persons who indicated only a single race group, including those of Hispanic or Latino origin
${ }^{3}$ Refers to persons who indicated more than one race group, including those of Hispanic or Latino origin. Only two combinations of multiple race groups are shown due to small sample sizes for other combinations.
${ }^{4}$ Refers to persons who are of Hispanic or Latino origin and may be of any race or combination of races. "Not Hispanic or Latino" refers to persons who are not of Hispanic or Latino origin, regardless of race.
${ }^{5}$ Shown only for adults aged 25 and over.
${ }^{6}$ GED is General Educational Development high school equivalency diploma.
${ }^{7}$ "Full-time" employment is 35 or more hours per week. "Part-time" employment is 34 or fewer hours per week.
${ }^{8}$ Includes persons who reported a dollar amount or who would not provide a dollar amount but provided an income interval.
9 "Poor" persons are defined as having income below the poverty threshold. "Near poor" persons have incomes of $100 \%$ to less than $200 \%$ of the poverty threshold. "Not poor" persons have incomes that are 200\% of the poverty threshold or greater
${ }^{10}$ Based on a hierarchy of mutually exclusive categories. Adults with more than one type of health insurance were assigned to the first appropriate category in the hierarchy. "Uninsured" includes adults who had no coverage as well as those who had only Indian Health Service coverage or had only a private plan that paid for one type of service such as accidents or dental care.
${ }^{11}$ MSA is metropolitan statistical area. Large MSAs have a population size of 1 million or more; small MSAs have a population size of less than 1 million. "Not in MSA" consists of persons not living in a metropolitan statistical area
NOTES: Estimates are based on household interviews of a sample of the civilian noninstitutionalized population. This table is based on data from the Sample Adult file and was weighted using the Sample Adult weight. Unknowns for the columns were not included in the denominators when calculating percentages. Percentages may not add to totals due to rounding. "Total" includes other races not shown separately and persons with unknown education, family income, poverty status, and health insurance characteristics. For more information on the data source, methods, and definitions used for this table, refer to Technical Notes for Summary Health Statistics Tables: National Health Interview Survey (available from http://www.cdc.gov/nchs/nhis/SHS/tables.htm).
