## *Final Addenda*

### *Change Files*

Changes to the ICD-10-CM codes and descriptions between the 2011 version and the 2012 version are represented in a single file. The file, icd10cm\_diff.txt, provides a complete listing of all addenda in a format suitable for processing by computer.

The file has one record for each ICD-10-CM code deleted since 2011, one record for each ICD-10-CM code added for 2012, and two records for each ICD-10-CM code for which only the description has been revised, the first showing the old 2011 description and the second showing the new 2012 description. The file is in ICD-10-CM code order. Each record has the following format:
