

Healthy People 2010 Operational Definition

1-8. In the health professions, allied and associated health profession fields, and the nursing field, increase the proportion of all degrees awarded to members of underrepresented racial and ethnic groups.

1-8b. Asian or Pacific Islander — health professions and allied and associated health profession fields.

National Data Sources	Survey of Predoctoral Dental Educational Institutions, American Dental Association; Profile of Pharmacy Students, American Association of Colleges of Pharmacy; <i>AAMC Data Book</i> , Association of American Medical Colleges; Annual Data Report, Association of Schools of Public Health.
State Data Sources	Survey of Predoctoral Dental Educational Institutions, American Dental Association; Profile of Pharmacy Students, American Association of Colleges of Pharmacy; <i>AAMC Data Book</i> , Association of American Medical Colleges; Annual Data Report, Association of Schools of Public Health.
Healthy People 2000 Objective	21.8 (Clinical Preventive Services).
Changes since the 2000 Publication	Revised baseline (see Comments).
Measure	Percent.
Baseline (Year)	16.3 (1996–97)
Target	4.0 (see Comments)
Target-Setting Method	Target is based on the U.S. Bureau of Census projection of the proportion of Asian or Pacific Islanders in the U.S. population in the year 2000. For a discussion of target-setting methods, see Part A, section 4.
Numerator	Number of degrees in the health professions (medicine, dentistry, pharmacy, and public health)

and allied and associated health profession fields awarded to Asian and Pacific Islander persons.

Denominator

Number of degrees awarded by accredited schools to all persons in the health professions and allied and associated health profession fields.

Population Targeted

Students in accredited health professions and allied and associated health profession schools.

Questions Used To Obtain the National Baseline Data

Not applicable for data collected on pharmacy degrees and public health degrees.

For medical degrees, see *AAMC Data Book*.¹

For dental degrees, from the 1997–98 Survey of Predoctoral Dental Education Institutions:

- *How many students received a D.D.S. or D.M.D. degree between October 1, 1996 and September 30, 1997?
(Total must equal the total number of graduates listed on the graduate class list.)*
- *How many students received a D.D.S. or D.M.D. degree between October 1, 1996 and September 30, 1997 in each of the following race/ethnicity categories?*

	<i>Male</i>	<i>Female</i>	<i>Total</i>
<i>a. White</i>	_____	_____	_____
<i>b. Black</i>	_____	_____	_____
<i>c. Hispanic</i>	_____	_____	_____
<i>d. Native American</i>	_____	_____	_____
<i>e. Asian</i>	_____	_____	_____
<i>f. Not Indicated</i>	_____	_____	_____
<i>Total</i>	_____	_____	_____

(Total must equal the total number of graduates listed on the graduate class list.)

Expected Periodicity

Annual.

Comments

This measure includes only U.S. citizens in its tabulation of public health degrees.² Dental degrees include both D.D.S. and D.M.D.³ Pharmacy degrees include both doctor of pharmacy degrees awarded as the first professional degree and postbaccalaureate degrees.⁴ Medical degrees include only M.D. graduates.¹ Undergraduate and graduate nursing degrees are excluded from this measure.

This measure combines data from four sources that collect data on accredited schools; the data are tabulated by the Bureau of Health Professions

(BHP), HRSA.

The Asian or Pacific Islander population group exceeded its target at the baseline. The target was set based on this group's estimated proportion of the population in the year 2000.

The original baseline of 16.2 percent was based on preliminary data and was revised to 16.3 percent when complete data became available. The original target of 4.0 percent did not change.

Objective 1-8 is similar to Healthy People 2000 objective 21.8, which tracked the proportion of degrees awarded to underrepresented persons enrolled in nursing schools. Objective 1-8 tracks degrees awarded to underrepresented populations in all Health professions, nursing, medicine, dentistry, and pharmacy.

See Appendix A for focus area contact information.
