**Comments**

This objective is identical to one of the measures tracked by Healthy People 2000 objective 1.8. In addition to monitoring daily physical education for students in grades 9 through 12, objective 1.8 also monitored daily physical education for all students (grades 1 through 12).

For some measures, data do not meet the criteria for statistical reliability, data quality, or confidentiality and have been suppressed. Information on suppression of data for the major Healthy People 2010 data systems has been published in a *Healthy People Statistical Note*.<sup>1</sup>

See Part C for a description of YRBSS and Appendix A for focus area contact information.
