

## List of Chartbook Figures

### Population

1. Total population and older population: United States, 1950–2050 . . . . . 17
2. Population in group quarters, by type of setting: United States, 1990 and 2000 . . . . . 19
3. Population in selected race and Hispanic origin groups, by age: United States, 1980–2005 . . . . . 21
4. Poverty by age: United States, 1966–2004 . . . . . 23
5. Low income by age, race, and Hispanic origin: United States, 2004 . . . . . 25

### Health Insurance and Expenditures

6. Health insurance coverage at the time of interview among persons under 65 years of age: United States, 1984–2004 . . . . . 27
7. Uninsured for at least part of the 12 months prior to interview among persons under 65 years of age, by length of time uninsured and selected characteristics: United States, 2004 . . . . . 29
8. National health expenditures as a percentage of Gross Domestic Product: United States, 1960–2004 . . . . . 30
9. Personal health care expenditures, by source of funds and type of expenditures: United States, 2004 . . . . . 31

### Health Risk Factors

10. Cigarette smoking among men, women, high school students, and mothers during pregnancy: United States, 1965–2005 . . . . . 33
11. Binge drinking and current marijuana use among high school students, by sex, grade level, and year: United States, 1991, 1993, 2003, and 2005 . . . . . 35
12. Regular leisure-time physical activity among adults 18 years of age and over, by percent of poverty level, race and Hispanic origin: United States, 2004 . . . . . 37
13. Overweight and obesity, by age: United States, 1960–2004 . . . . . 39
14. Untreated dental caries among children, by age, race and Hispanic origin: United States, 1971–2002 . . . . . 41

### Morbidity and Activity Limitation

15. Three or more chronic conditions among adults 45 years of age and over, by age and percent of poverty level: United States, 2004 . . . . . 43
16. Selected chronic health conditions causing limitation of activity among children, by age: United States, 2003–2004 . . . . . 45
17. Selected chronic health conditions causing limitation of activity among working-age adults, by age: United States, 2003–2004 . . . . . 47
18. Selected chronic health conditions causing limitation of activity among older adults, by age: United States, 2003–2004 . . . . . 49

### Health Care Utilization

19. Dental visit in the past year among children, by age, race and Hispanic origin: United States, 2004. . . . . 51
20. Influenza vaccination during the past year among adults 50 years of age and over, by race and Hispanic origin: United States, 2003–2004 . . . . . 53
21. Emergency department visits for falls, by sex and age: United States, 2002–2004 . . . . . 55
22. Visits to physician offices and hospital outpatient departments, by sex and age: United States, 1997–2004 . . . . . 57
23. Average annual hospital inpatient gastric bypass and other bariatric procedures among adults 18–64 years of age with obesity, by sex and age: United States, 1999–2004 . . . . . 59

### Mortality

24. Life expectancy at birth and at 65 years of age, by sex: United States, 1900–2003. . . . . 61
25. Infant, neonatal, and postneonatal mortality rates: United States, 1950–2003 . . . . . 63
26. Infant mortality rates, by detailed race and Hispanic origin of mother: United States, 2001–2003 . . . . . 65
27. Death rates for leading causes of death for all ages: United States, 1950–2003 . . . . . 67

**Special Feature: Pain**

28.	Adults 20 years of age and over reporting pain in the month prior to interview, by selected characteristics: United States, 1999–2002 . . . . .	69
29.	Duration of pain among adults reporting pain, by age: United States, 1999–2002 . . . . .	71
30.	Adults reporting low back pain, migraine, neck, and face pain in the 3 months prior to interview, by age: United States, 2004 . . . . .	73
31.	Adults 18 years of age and over reporting low back pain in the 3 months prior to interview, by selected characteristics: United States, 2004 . . . . .	75
32.	Adults 18 years of age and over reporting joint pain in the 30 days prior to interview, by severity level and selected characteristics: United States, 2003 . . . . .	77
33.	Narcotic analgesic drug visits to the emergency department among visits with a severe pain level recorded, by age, sex, and race: United States, 2003–2004 . . . . .	79
34.	Adults 18 years of age and over reporting narcotic drug use in the month prior to interview, by sex and age: United States, 1988–1994 and 1999–2002 . . . . .	81
35.	Hospital discharges for knee and nonfracture hip replacement surgery among adults 45 years of age and over, by sex and age: United States, 1992–1993 and 2003–2004 . . . . .	83
36.	Adults reporting ambulatory medical care use for headaches and associated ambulatory medical care expenses, by age and sex: United States, 2002–2003 . . . . .	85
37.	Health status measures among adults 18 years of age and over with and without low back pain, by age: United States, 2004 . . . . .	87
