HINSDALE CENTER FOR REPRODUCTION HINSDALE, ILLINOIS

Comparing success rates across clinics may not be meaningful. Patient medical characteristics and treatment approaches vary (see pages 11-21).

2016 ART CYCLE PROFILE

Data verified by Michael J. Hickey, MD

Type of ART and Procedural Factors a				Patient Diagnosis ^{a,b}						
IVF Unstimulated Used gestational carrier		With ICSI PGD/PGS		Tubal factor Ovulatory dysfunction Diminished ovarian reserve Endometriosis	7% 6%	Uterine factor Male factor Other factor Unknown factor	40%	Multiple Factors: Female factors only Female & male factors	9% 15%	

2016 ART SUCCESS RATES c,d

Total number of cycles^d: 88

Type of Cycles	2016 ART SUCCESS RATES (includes 0 cycle[s] using fresh em	bryos from f	rozen nondo	nor eggs)				
Number of cycles	Time of Civale		Age of Patient

CURRENT SERVICES & PROFILE

Current Name: Hinsdale Center for Reproduction

Donor eggs?	No	Embryo cryopreservation?	Yes	Single women?	Yes	SART member?	Yes
Donor embryos?	No	Egg cryopreservation?	Yes	Gestational carriers?	No	Verified lab accreditation?	Yes

^a Excludes cycles evaluating new procedures and banking cycles; unstimulated percentage includes fresh egg cycles only.

b Total patient diagnosis percentages may be greater than 100% because more than one diagnosis can be reported for each ART cycle.

^c Fractions are used for rates with denominators less than 20. Multiple-infant births (for example, twins) with at least one live infant are counted as one live birth.

d Total cycle number and success rates exclude 0 cycle(s) evaluating new procedures. Success rates exclude cycles using fresh embryos from frozen nondonor eggs.

e In this report, births are defined as term if at least 37 full weeks gestation and normal birth weight if at least 2,500 grams (approximately 5 pounds, 8 ounces).

f All ages are reported together because previous data show that patient age does not materially affect success with donor eggs.
