## **CNY FERTILITY CENTER SYRACUSE, NEW YORK**

Comparing success rates across clinics may not be meaningful. Patient medical characteristics and treatment approaches vary (see pages 11-21).

**2016 ART CYCLE PROFILE** 

Data verified by Robert J. Kiltz, MD

| Type of ART and Procedural Factors <sup>a</sup> |      |           |     | Patient Diagnosis a,b      |     |                |     |                       |     |
|---|------|-----------|-----|----------------------------|-----|----------------|-----|-----------------------|-----|
| IVF   | 100% | With ICSI | 85% | Tubal factor               | 14% | Uterine factor | 6%  | Multiple Factors:     |     |
| Unstimulated                                    | 1%   | PGD/PGS   | 5%  | Ovulatory dysfunction      | 17% | Male factor    | 23% | Female factors only   | 14% |
| Used gestational carrier                        | 2%   |           |     | Diminished ovarian reserve | 20% | Other factor   | 22% | Female & male factors | 11% |
|   |      |           |     | Endometriosis              | 10% | Unknown factor | 19% |                       |     |

2016 ART SUCCESS RATES c,d

Total number of cycles 3,910

## **CURRENT SERVICES & PROFILE**

Current Name: CNY Fertility Center

| Donor eggs?    | Yes | Embryo cryopreservation? | Yes | Single women?         | Yes | SART member?                | Yes |
|----------------|-----|--------------------------|-----|-----------------------|-----|-----------------------------|-----|
| Donor embryos? | Yes | Egg cryopreservation?    | Yes | Gestational carriers? | Yes | Verified lab accreditation? | Yes |

<sup>&</sup>lt;sup>a</sup> Excludes cycles evaluating new procedures and banking cycles; unstimulated percentage includes fresh egg cycles only.

<sup>&</sup>lt;sup>b</sup> Total patient diagnosis percentages may be greater than 100% because more than one diagnosis can be reported for each ART cycle.

<sup>&</sup>lt;sup>c</sup> Fractions are used for rates with denominators less than 20. Multiple-infant births (for example, twins) with at least one live infant are counted as one live birth.

d Total cycle number and success rates exclude 0 cycle(s) evaluating new procedures. Success rates exclude cycles using fresh embryos from frozen nondonor eggs.

e In this report, births are defined as term if at least 37 full weeks gestation and normal birth weight if at least 2,500 grams (approximately 5 pounds, 8 ounces).

f All ages are reported together because previous data show that patient age does not materially affect success with donor eggs.
